## Start to Break Up Bakery Trust

By Associated Press

JEFFERSON CITY, Mo., Jan. 11.—A suit charging the American Bakery Company of St. Louis with being a trust in restraint of trade was filed in the State Supreme Court today by Attorney-General Barker.

The suit asks that the charter of the company be forfeited and that a fine be imposed. The company was organized in 1897. The attorney-general charges that the American Company and seven other baking firms in St. Louis are members of a combination formed by the American Bakery Company, and that, under an agreement, the size of a loaf of bread has been reduced from 16 to 13 ounces.

## MORE LAWS PROPOSED TODAY

### Defeated Woman Ends Her Life on Grave of Mother

By Associated Press

RED BLUFF, Jan. 11.—Miss Delta Smith, 40 years old, who for eight years was superintendent of schools for Tehama county, was found dead today beside her mother's grave, with a bullet hole in her head. She committed suicide last night. Since her defeat for re-election last November, it is said, Miss Smith had been despondent.

### SAFETY BRAKE ON ELEVATOR LACKING

SACRAMENTO, Jan. 11.—That there are no emergency brakes on the elevator in the California-Pacific Building, which dropped seven floors to the basement, bringing death and injury to its occupants, last Wednesday noon, was the testimony of Paul Alexander McDonald, the elevator operator, during the investigation by Coroner T. B. W. Leland today.

The inquest was started at the inquest room of the Hotel El Dorado, 1511 23rd Liberty street, Alameda, a civil engineer for the Oakland, Antioch and Eastern Railway, who died 30 hours after his skull had been fractured in the awful plunge.

An added gloom was cast over the investigation when it was learned that Dr. Wallace L. Terry, who was the first witness and who attended Harold Fitting, was forced to hurry away from the inquest to the Adler Sanitarium to attend Edward H. Howard, millionaire president of the Howard Cosmetics of San Mateo. Howard has developed pneumonia as the result of the injuries sustained in the accident and is not expected to live. He suffered internal injuries and a fracture of the pelvic bone.

It is very unpleasant for me to hear this continual talk of fraud in this connection, and I should like to have this annoyance settled as quickly as possible, said Senator Wolfe.

The senate members were ready to take up again the thread of legislative work where it was dropped Friday noon. A meeting was scheduled for 10 a.m. of the senate committee on the investigation of the contest of E. E. Grant for the seat of Senator Wolfe of San Francisco.

**MORE BILLS TODAY.**

Introduction of more bills was the main business of the day in both houses, but there were indications among both senators and assemblymen that the volume of proposed new legislation presented today would not exceed and possibly fall under the number introduced in the two days before the recess was taken last week.

Discussion of the revenue and taxation measure, in which it is proposed to raise the rates of the corporations which support the state, was the main theme among administration leaders of the senate yesterday and there is a general opinion that the issue will occupy the center of the stage for the present week.

Tonight the committee on contested

**Lays Blame on Farmer for High Wheat Prices**

By Associated Press

CHICAGO, Jan. 11.—Blame for high prices of wheat products should not be laid at the door of the retail grocer, but upon the farmer, who has kept his wheat from market, according to F. B. Connelly of San Francisco, president of the National Association of Retail Grocers, officials of which met here today.

The farmer individually and in the group has held their wheat for higher prices, Mr. Connelly said. "The grocers and bakers are merely collectors and distributors. They are not to blame and are actually suffering."

The occasion of the gathering of grocers was a meeting of the executive committee in preparation for the annual convention of the association in San Francisco next month.

**Helmstein Gains 40 Votes Over Kelley**

By Associated Press

TOPEKA, Kan., Jan. 11.—Arthur Capper of Topeka, the first native Kansan to be chosen Chief Executive of the State and the first to be chosen by the suffrage of both men and women of the state was inaugurated today as the twentieth Governor of Kansas. In his address, Governor Capper urged a vigorous campaign for national prohibition and woman suffrage.

## Terrors of War Fill Edinburgh

By Associated Press

NEW YORK, Jan. 11.—The inhabitants of Edinburgh have "gone crazy" through fear of a German attack, according to Gottfried Deltsch, one of fifteen British subjects of German birth who arrived here from England today. Deltsch's home was in Edinburgh.

"Every one not a native of Great Britain is under suspicion in the Scotch capital," he said. "Fortifications have been thrown up in and about the city, even to the extent of placing sand bags and machine guns on the roofs of the principal buildings."

# VILLA ATTACKS MONTEREY

## ADVANCE TO RETRIEVE DEFEAT

### Capital of Tamaulipas Is Reported Captured by Villaistas

Villareal's Troops Presumably Included in Besieging Force

By Associated Press

LAREDO, Texas, Jan. 11.—An attack by Villa troops on Monterey is believed to have been begun about noon today. At 11 o'clock the operators at Monterey deserted the telephone line there. Since the defeat of the constitutionalists, numbering 15,000, under General Villareal, before Saltillo early yesterday, Villa troops, according to reports, have been making a rapid advance toward Monterey.

Victoria, capital of the Mexican state of Tamaulipas, has been captured by forces loyal to General Villa, after an extended siege, according to reports received here. No details were given.

Villa forces are credited with a decisive victory over the troops of General Antonio L. Villareal.

Detective-Sergeant A. S. J. Woods expects to have Hartman arrested before Judge Edgar tomorrow in charge of obtaining money under false pretenses. To the detective Hartman admitted practically all of Specker's charges, but declared that he is able to put in the field arrangements have been completed also for the financing of these operations.

**STRATEGIC DELAY.**

The lack of stirring battles at the present stage is attributed by British commentators largely to the determination of the allied commanders to content themselves with holding their present positions until the projected ring of arms is considered sufficiently strong to strike a blow which they hope will prove decisive.

The British idea that operations up to now are only preparatory to big events, fits in with a bit of gossip now heard here. It is to the effect that Lord Kitchener, when asked concerning the probable duration of the war said, "I don't know when it will end, but I do know when it will begin, and that is in the month of May."

The opinion is expressed in some quarters, however, that the inauguration of more general movements will be on June 1st, amounting to 1,200,000 men, as far as possible date is generally expected, although persons in close touch with the army believe that the real crisis will not be reached until summer.

**MANY NEW TROOPS.**

Russia is still sending enormous masses of men to within easy reach of various points on her long fighting line. The levies of 1914, amounting to 1,200,000 men, are just leaving the training camps, which

is considered sufficiently strong to strike a blow which they hope will prove decisive.

The British idea that operations up to now are only preparatory to big events, fits in with a bit of gossip now heard here. It is to the effect that Lord Kitchener, when asked concerning the probable duration of the war said, "I don't know when it will end, but I do know when it will begin, and that is in the month of May."

The opinion is expressed in some quarters, however, that the inauguration of more general movements will be on June 1st, amounting to 1,200,000 men, as far as possible date is generally expected, although persons in close touch with the army believe that the real crisis will not be reached until summer.

**THE BAIT APPEARS.**

While the two were strolling down a shady path at the unit's gate, a man counting a huge roll of bills was spied. Hartman seemed to remember him. Anyhow, he spoke to him and said it appeared that Villareal was preparing to retreat to Matamoros from Monterrey and was destroying the road to Monterrey.

Detectives of the Berkeley police department went to San Francisco to day and interviewed Specker and his wife, to ascertain which they escorted their prisoner across the bay, but with little assistance from Hartman, who denies knowing the whereabouts of his former companion.

Hartman, a young man of natty appearance and breezy conversation, who passed last night in the city prison in San Francisco, was brought to Berkeley today.

The complaints were induced to hand over to Hartman \$40, with which to bet on the races, and as the coin was given him on the carpus the police say that he must be prosecuted in Berkeley.

Detectives of the Berkeley police department went to San Francisco to day and interviewed Specker and his wife, to ascertain which they escorted their prisoner across the bay.

The Speckers said they first met Hartman in Golden Gate Park. It seemed to be a casual meeting. They were strangers in the city and he befriended them, obtaining apartments at the Wiltshire Hotel and next day by showing them over to Berkeley to look at the university.

Anyhow, he spoke to him and said it appeared that Villareal was preparing to retreat to Matamoros from Monterrey and was destroying the road to Monterrey.

**DETAILS OF THE BATTLE OF SALTILLO.**

Details of the battle of Saltillo, which ended yesterday in the defeat of 15,000 Carranca troops who were attacking about 16,000 Villa troops, indicate the trick of one man was largely responsible.

(Continued on Page 3, Col. 4)

**Pre-war Estimates to Be Shown Senate**

By Associated Press

WASHINGTON, Jan. 11.—Resolution by Senator Lodge requesting the Secretary of War to submit estimates made before European war by the army general staff for a mobile army of approximately 460,000 men, was adopted by the Senate today without debate. The resolution further requests a statement of the amount of ammunition that would be required and the amount of war material on hand January 1, 1915.

**Nation-Wide Suffrage Amendment Perfected**

WASHINGTON, Jan. 11.—Preparation for tomorrow's fight in the House over the Mondell-Bristow resolution for an amendment making woman suffrage nation-wide were perfected today. Majority Leader Underwood secured an agreement for the use to meet at 11 a.m. when the resolution will be brought in under a special rule, providing 5 hours' debate, equally divided.

**Railway Mail Clerk Thrown From His Car**

By Associated Press

OCEANSIDE, Cal., Jan. 11.—Harold Hamilton, a railway mail clerk, was found unconscious today beside the railroad track near Encinitas. He had evidently fallen out of his car as the northbound Santa Fe train swung around the curve. It was believed that Hamilton sustained fatal injuries.

**Schumann-Heink Is Ill With Pneumonia**

By Associated Press

CHICAGO, Jan. 11.—Madame Schumann-Heink, the famous soprano, is seriously ill with bronchial pneumonia, at her home. Through her condition, it was said, today, was not dangerous. She was to have left tomorrow for San Diego, Cal., but this trip has been postponed.

## BUNKO MAN TO APPEAR IN COURT

Walter Hartman Confesses Part in Fleecing on Campus.

(Continued from Page 1)

said that he heard the stranger had made a wad of money betting on the races.

"Hush!" said the stranger. "Don't tip that off. Here's \$29. Split it up between yourself and your friend and get in the game yourself if you want to."

Returning to San Francisco, Hartman suggested that a little bet be placed on the "ponies." Specker agreed. Hartman went away and came back jubilant. His "horse" won and he and Specker split a small amount between them. Then another bet was suggested. Specker produced \$26 and his wife \$10. Hartman went on to the deal. Later returning, he seemed grave. Their horse had won, he said, but it wouldn't do to let the friend that had selected them on to the racing game know that the Speckers had been taken in on the deal. Mum was the word, and Specker was told that it would be better for him to hold his ticket for a time.

### AFTER MORE MONEY

Hartman took the Speckers to the theater Saturday night. After the show he had the Speckers so enthused over the racing game that Mrs. Specker wired to Prairie du Sac for relatives to telegraph out \$3500 quick. Then Hartman agreed to meet the Speckers at 10 o'clock yesterday morning.

That night Specker began to get suspicious about that \$300 of his. He went to police headquarters and told the story set down above. Hartman showed up at 10 o'clock yesterday morning. So did Detectives Tom Burke and Frank Black of the San Francisco force and Hartman now is in jail.

### Photograph Necessary Is Exposition Rule

Persons who wish to buy a season ticket to the Exposition grounds will have to have a photograph made by the Exposition photographer, which picture will be placed on the ticket to make it valid. This was the decision reached by the commissioners at a recent conference in order that there may be no possible chance of "scamming." Having the photographs made by their own men is the other precaution, which they feel will serve as a means of identifying indefinitely the owner, with no possibility of mistake.

### Wheat Prices Tumble on Turkish Rumors

By Associated Press. CHICAGO, Jan. 11.—Wheat came down today with a crash. Prices broke \$16 cents a bushel under general selling due to rumors that one of the forts guarding the Dardanelles had been demolished by the warships of the allies. Speculators drew the inference that a way would speedily be opened for Russian wheat that has been piled up in immense quantities because of the enforced stop of Turkish outlet through the Dardanelles. May wheat here sold as low as \$1.33 5-8 after having been up to \$1.8 earlier in the session. The close was 3 to 3 1/2 cents decline.

### Envoy to Fair Given Farewell Luncheon

By Associated Press. TOKYO, Jan. 11, 4 p. m.—George W. Guthrie, the American ambassador, gave a farewell luncheon to Admiral Baron Shigeto, special envoy of Japan to the Panama-Pacific Exposition, who has arranged to sail for San Francisco on the Chuo Maru on January 16. From San Francisco the admiral will go to Chicago, New York and Washington. He is to be accompanied by Commander Seizo Ko Hayashi and Yohitake Uyeki.

## Howitzers Defied by Oaklander He Has Thrilling Rescue Trip

RAYMOND BAKER, OAKLANDER, WHO MADE PERILOUS TRIP TO RUSSIAN WAR FRONT.

Guarding Mrs. George T. Marry, wife of the American ambassador to Russia, from harm on the Warsaw battle front, Ray Baker, of Oakland, and recently appointed secretary in the Russian legation, has reached Petrograd with his charge, according to news arriving in Oakland, after one of the most thrilling trips ever taken by a non-combatant in the present war. He was within three miles of the firing line with Mrs. Marry, and succeeded in bringing her safely through the war zone to her husband.

Baker, who at one time was an officer of the Nevada State prison, and later was made warden, and whose removal in a political change attracted almost national attention, had been a legation secretary for some months. He declared that throughout the trip the ambassador's wife showed the greatest courage and did not hesitate to press through threatened dangers.

Baker, in recounting details of the experience of Mrs. Marry and himself, said: "The ambassador's wife enjoyed the trip across the battlefield tremendously, and although we were almost in the center of things, with every road and field black with maimed troops and the continuous booming of big guns was always in our ears. Mrs. Marry showed no apprehension in what was going on.

### NEAR MACHINE GUNS.

"At one point we were close enough to hear the intermittent rattling of the machine guns. Here we came upon the line of secondary trenches, and were invited to enter. In the marvellously constructed underground rooms we saw the soldiers—then off duty—gathered around small fires and singing. By peering through chinks between the sandbags lying on top of the trenches we could see the curious vista of the country between us and the fighting.

"Our route lay through a road close to within three miles of Sochaczew. The roads were soft and unfrozen in this region, making automobile travel difficult, and we had trouble "breeding our

way through the double line of incoming and outgoing transports. The features which most impressed Mrs. Marry were the utter devastation of the country everywhere scarred by battle, and the stream of homeless and hopeless refugees, faintly clad and shivering, without a shawl or blanket.

"Our objective was the field hospital to which the wounded were being brought in automobiles and wagons. Mrs. Marry spent some time here and visited every one of the wounded, to whom she distributed cigarettes.

"The eagerness and appreciation of the soldiers were very touching. In this hospital were wounded of all degrees. Some only trivially hurt stood up and bowed to the ambassador; others lay between life and death.

According to Warsaw Mrs. Marry visited other hospitals, one of which contained 200 beds, and where the patients are looked after by 50 nurses and 100 nurses, the latter being volunteers from the best families of Russia and Poland."

### TO FILE SUIT AGAINST ST. LOUIS BREAD TRUST

By Associated Press.

JEFFERSON CITY, Mo., Jan. 11.—Suits seeking to oust an alleged bread trust of St. Louis from doing business in Missouri will be filed here today by Attorney-General Barker, who has announced he will be directed against one company and will charge that this company formed a pool and trust agreement with seven others.

The information will charge that while these seven companies have died, dissolved, or merged, they maintain the same plants and conduct business with the same officers as before the dissolution.

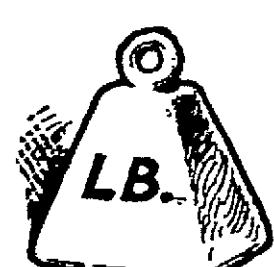

That officers of the municipal companies are also officers of the alleged allied companies; that the size of loaves of bread was reduced from 16 to 13 ounces under the alleged trust agreement, thereby increasing the price.

"Our route lay through a road close to within three miles of Sochaczew. The roads were soft and unfrozen in this region, making automobile travel difficult, and we had trouble "breeding our

## Chants Prayers on the Scaffold

By Associated Press.

VANCOUVER, B. C., Jan. 11.—Accompanied to the scaffold by a Hindu priest, and chanting hymns from the Slikh bible, Meawa Singh, the murderer of Immigration Interpreter William J. Hopkinson, was hanged in the provincial prison at New Westminster today. Three hundred Hindus gathered around the Westminster jail. Fearing trouble, the officials had stationed many guards, heavily armed, about the building and grounds. The Hindus attempted no demonstration, however. Hopkinson, who had been active in enforcing the immigration laws against East Indians, was shot dead in a Vancouver courtroom October 21, 1914.

## Money for Money—Pound for Pound

—there's no food that equals Grape-Nuts in concentrated food strength.

A pretty big claim, but listen—

"All-wheat food" sounds good to most people, but Grape-Nuts goes one better. It not only contains the entire nutriment of wheat, but also the rich nourishment of barley.

More! Grape-Nuts is long baked and digests quickly. Most wheat foods—bread, for instance, and some so-called breakfast foods—require 2 1/2 to 3 hours for digestion.

Grape-Nuts food digests generally in about one hour.

Being highly concentrated, there's more actual food value, weight for weight, in Grape-Nuts than in some other foods sold in bigger packages.

Grape-Nuts contains the vital bone, muscle and nerve-making phosphates necessary for health and life, but lacking in most wheat foods—white bread especially. A daily ration of Grape-Nuts readily makes up for this lack.

Ready to eat from the package, appetizing, nourishing, economical—

## "There's a Reason" for Grape-Nuts

—Sold by Grocers everywhere.

## PARIS ANNOUNCES

### ALLIES' ADVANCE

Small Advantages Are Claimed as Result of Sharp Attacks.

(Continued From Page 1)

will be occupied immediately by the 1915 forces now called out. Germany's newest, just recruited, amounts to 500,000 men of the age of 18, and her masses of reserves already under arms enabled her to call heavy reinforcements wherever required without withdrawing troops already engaged at the front in either the eastern or the western fighting zones.

For the moment, the center of the western field is Perthes, on account of the railroads in that region, which are of equal great importance to both the Germans and the French. Should either side gain possession of the railroad the front would be cut, and it would be necessary to evacuate Perthes for a considerable distance. The Germans realized that when the French captured Perthes and brought up forces in an attempt to regain the lost terrain.

The fighting in Poland recently has been purely of a local character.

Farther south, simultaneously with the Russian progress in Bakhman, an advance on Tzurav once more appears to be imminent.

### ARTILLERY DETAILS.

By Associated Press. PARIS, Jan. 11, 1:40 p. m.—The statement given out by the French war office this afternoon shows a continuation at certain points of intermittent cannonading, but these artillery duels do not appear yet to have brought any important results. In addition there was some trench fighting, with French gains, according to the announcement. Otherwise yesterday does not appear to have been a day of particular activity or developments.

"From the front to the Lys there was yesterday an intermittent and not very intense cannonading. In the region of Ypres the French army responded effectively to the artillery of the enemy and sent well-placed shots against the German trenches.

"From the Lys to the Oise in the region of Bapaume our troops took possession of a trench of the enemy after a violent fight. To the northeast of Soissons on Spur 132, they following repulsed a German attack. Following this they attacked and occupied two lines of the enemy's trenches along a front of about 700 yards thus extending toward the east the trenches captured January 2, and assuring complete possession of "Spur 132."

"On the Aisne and in Champagne, as far as Rethel, there have been artillery exchanges. From Rethel to the Argonne region the French army has captured the parts of some trenches which had been stormed by the French and that the Germans inflicted heavy losses on their opponents.

Fresh German successes are claimed in the Argonne region and the statement also reports that French attacks at La Boisselle and at a point north of Soissons were repulsed.

Unfavorable weather continues to hinder the military operations in Russian Poland, though the Germans claim to be making progress slowly in the direction of Warsaw. The text of the communication follows:

"In the western theater: At Nieupont and at Ypres and south thereof only artillery combats have taken place. A French attack at La Boisselle, to the northeast of Albert, failed completely. North of Soissons the French, who had established themselves in a small section of the outer defenses, attacked again, but so far they have gained no successes. The battles continue.

"In the neighborhood of Souper (east of Valmy) no fighting has taken place during the last few days.

"The east of Perthes our troops have recaptured that portion of our trenches which the enemy had taken. In this engagement heavy losses were inflicted on the French.

"In the Argonne forest our attacks have made further progress.

"In upper Alsace the situation is tranquil.

"In the eastern war arena: In East Prussia and in northern Poland the situation remains the same.

"Owing to unfavorable weather our attacks in Poland to the west of the Vistula River are making little progress."

The German war office claims that positions won by their opponents were repulsed.

The German war office admits that the French have captured trenches north of Soissons, toward the western end of the battle line, but states that further onslaughts were repulsed.

The French announcement says two more lines of trenches, covering 500 yards of the front, have been occupied. There is a similar disparity of statements concerning the progress of the fighting near Perthes, which has assumed importance because the prize at stake is control of railroads of high strategic value. The French communication states that 200 yards of German trenches were seized. While the German authorities say that positions won by their opponents were repulsed.

Cascarets immediately cleanse and regulate the stomach, remove the gas, digest and fermenting food and foul gases; take the excess bile from the liver and carry off the concreted waste matter and poison from the bowels.

Remember, Cascarets tonight will straighten you out by morning. A 10-cent box from your druggist means healthy bowel action; a clear head and cheerfulness for months. Don't forget the children. —Advt.

# CONFEREES TO SHAPE STATE REVENUE BILL

## NEW BILLS ARE BEFORE ASSEMBLY

Introduction of Measures Constitute Program of Legislators.

(Continued From Page 1)

elections in the lower house is scheduled to decide the contest between Dr. H. C. Bagby of Santa Maria, who seeks the assembly seat occupied by Ira E. Kramer of Santa Barbara.

### ESHILEMAN ILL.

Lieutenant Governor Eshileman was absent when the senate was called to order. Last week he was suffering with a severe cold and he went to his home in Berkeley Friday afternoon, for the three days of recess. In his office today it was given out that he was expected to return to Sacramento before the close of the day. Senator Thomas E. Proctor, pro-temp, presided in his place. Although practically three days have elapsed, nothing for a supposed accumulation of bills, only 27 had been presented when the session took a recess at 11:40 a. m.

A concurrent resolution was introduced by Senator Benedict of Los Angeles providing for the legislature's approval of the new charter of Santa Monica, which establishes a commission form of government there.

A measure to lower the bars on admission to the practice of dentistry was presented by Senator Brown. Practically all of the other bills referred to technicalities to existing acts.

### ASSEMBLY ADJOURNS.

Less than a hour was occupied by the Assembly today in completing its brief calendar. Forty-two bills, one proposed constitutional amendment and two resolutions were introduced, the usual wide range of subjects being covered. Adjournment was taken until tomorrow.

Speaker Young announced after convening the house that he was yet unprepared to give out his committee, but thought he would be in a position to make an announcement tomorrow.

Chief among the measures introduced today was a bill by Assemblyman Henry Ward Brown of San Mateo requiring all lobbyists to register themselves, with the information as to whom they represent and what bills they are interested in. At the conclusion of the session they will be required to file a statement of their expenses. Failure to observe the provisions of the act is penalized by barring them from sessions for three years.

Assemblyman Schmitt brought up his bill requesting the state to purchase its supplies and material within the state.

Bruck of Napa introduced a measure looking to the pensioning of employees of the state hospitals. A board of retirement was proposed for which shall have control of the payment of salaries. To participate in the pension all employees would have a certain sum deducted from their salaries. Twenty years' service is fixed at retirement and the amount of the annuity at \$350.

### NEW ASSEMBLY BILLS.

Among the bills introduced in the assembly today were the following:

Br. Conrad—Providing for leasing by county supervisors of public lands to settlers.

By Gehrt—Relating to release of attachments on property exempt from taxation.

By Gilder—Anti-compulsory vaccination of school children.

By Spenger—Providing for eight-hour law for all persons, except graduate nurses in hospitals, farm hands and persons engaged in fruit industries during the picking and canning seasons.

By Boyce—Providing for construction of Monterey breakwater, expense to be borne by State and Federal governments.

By Rogers—Fixing a minimum of 3 a day wage on all contract work for state.

By Canape—Appropriating \$25,000 for construction of harbor facilities in San Francisco in Ferry Building.

A proposed constitutional amendment was introduced by Assemblyman Downing. Socialists of Los Angeles It would take away the power of the state courts to declare unconstitutional any law enacted by the legislature or by the people directly.

Arbitration Board Elicits Admission

By Associated Press.

CHICAGO, Jan. 11.—Increased productivity of western railroads might be due entirely to careful management, rather than to any efforts on the part of the workmen employed by the roads, according to admissions made today by W. J. Lusk, statistician, when cross-examined before the arbitration board that is investigating wage conditions on the western roads.

Johnson May Tour State to Ascertain Needs of the People Personally

SACRAMENTO, Jan. 11.—Governor Johnson announced that if circumstances would permit he would make a tour of the state after the legislative adjourns for the purpose of familiarizing himself more intimately with the needs of the various counties. His statement follows: "If circumstances will permit it, I shall, upon the adjournment of the legislature in the spring, make a tour of the state to afford people an opportunity of presenting matters in their respective localities and to gain for myself intimate understanding of whatever propositions may come before me.

In my case, and campaign travel over California, I have become greatly impressed with what I believe is to be derived by the people and by the governor in coming into direct contact. Even in the thickest campaign times I have never been free of my gubernatorial duties. In meeting people who were unable to journey to Sacramento, I have frequently been called upon to perform some official service that I have never felt myself removed from the office atmosphere.

**SERVICE TO PEOPLE.** "The chief executive is not the governor of any single locality, but of the State of California, and service to the people should, I take it, be his chief consideration. If by visiting the various communities, a better service can be performed, I feel that this is what a governor should do.

"Wherever we have placed the arm of the government in closer reach of the people, we have found that administration of affairs was facilitated and that the state has gained fully as much advantage as have the people directly affected.

### VALUE OF DIRECT CONTACT.

"To learn intelligently the needs of a community much is to be gained by personal visit and contact. This applies to the chief executive as well as to every state official. My critics to the contrary, the routine and the other work in the governor's office is in no degree halted by his absence in another part of the state. The secretaries carry it on with our interruption and the governor can always promptly be communicated with by wire.

"Rule by the people rests upon their intelligence and their active concern in governmental affairs. It is when their interest lags and indifference comes that those who would mislead government find their opportunities. It seems clear to me that nothing will stimulate that concern better than to place the citizen in immediate touch with the government."

**Budget Recommendation Has \$100,000 Provision to Combat Tuberculosis**

SACRAMENTO, Jan. 11.—Included in the budget recommendations of the state board of control is a provision of \$100,000 for a statewide systematic campaign against the spread of tuberculosis. Senator Crowley of San Francisco has submitted a bill on the same subject.

The board of control has investigated the subject and has decided that the most feasible plan appears to be that which contemplates a system of aid through the counties, with general supervision and control vested in the state."

The plan contemplated the payment of aid in those cases where the counties have actually taken up the work of properly caring for tubercular patients. Dr. Crowley's plan is a sanitarium to which patients could be sent from all parts of the state, for which he asks an appropriation of \$150,000, appears to have been prejudged by the board of control, which says on this subject:

"This plan (county aid) has been recommended because it seems to be the only one under which the problem can be effectively dealt with in any degree outside of a policy under which the state would engage in the founding of a number of sanitariums, the expense of which to be effective would not less than a sum between \$500,000 and \$750,000 at this time."

**LABOR EXCHANGE BILL TO APPEAR THIS WEEK**

By Associated Press.

SACRAMENTO, Jan. 11.—Governor Johnson's scheme to make a beginning toward alleviation of unemployment in California is embodied in a bill for the establishment of the state of free labor exchanges which has been drawn and brought to Sacramento by George L. Bell, secretary and attorney for the commission of immigration and housing, it has been learned.

Bell has held several conferences here with Simon J. Lubin of the commission and will discuss the measure with Governor Johnson before it is completed for introduction in the legislature. It appears probable that it will be introduced this week.

**Social Legislation Is Vigorously Advocated by Arizona Governor**

By Associated Press.

PHOENIX, Ariz., Jan. 11.—In his annual message Governor George W. P. Hunt today pleaded that the second state legislature, which convened at noon, enact laws creating a state labor bureau and employment system which would assure good labor conditions in hard times as well as good. He also advocated a minimum wage for women, and suggested some substitute for the anti-alien labor recently declared unconstitutional declaring that the practice of some employers who import 50 to 60 percent foreign labor was an unjust burden on the people of the state.

In connection with the proposed free state employment bureau, the governor recommended the creation of the office of state commissioner of immigration and the probable establishment of a state improvement fund which could be drawn upon for the purpose of employing heads of families on public works when labor conditions in private industrial enterprises were slack.

Another feature of the message was the recommendation for the establishment of a state legislative board of research, the function of which would be to furnish accurate and unbiased information to electors on measures presented on the ballot under the initiative and referendum.

**JUDGE PROVES PROPHET: WED SECOND TIME**

SACRAMENTO, Jan. 11.—Assemblyman L. E. Boyce of Merced, who has been in the legislature for an appropriation of \$200,000 for the construction of a breakwater at Monterey. Four years ago the legislature appropriated the sum for that purpose, which was made contingent upon the Federal government appropriating \$500,000. Certain stipulations of the War Department were not carried out and the state appropriation reverted to the state treasury in July, 1914.

**APPEAL TO FIND LOST BOY.**

SACRAMENTO, Jan. 11.—A bill which designates as an anti-usury measure was introduced by Senator Frank L. Housler of Los Angeles, who said yesterday: "It makes it a misdemeanor for any lender of money to make contract loans at a higher rate of interest than ten per cent.

**ANTI-USURY BILL.**

SACRAMENTO, Jan. 11.—A bill which designates as an anti-usury measure was introduced by Senator Frank L. Housler of Los Angeles, who said yesterday: "It makes it a misdemeanor for any lender of money to make contract loans at a higher rate of interest than ten per cent.

It seems clear to me that nothing will stimulate that concern better than to place the citizen in immediate touch with the government."

**U. S. Investigating High Price of Wheat**

By Associated Press.

CHICAGO, Jan. 11.—Federal investigation into the present high price of wheat was to begin here today to determine whether speculation or attempted "food cornering" has anything to do with the recent sensational rise in the market.

Albert L. Hopkins, assistant United States district attorney, who is in charge of the inquiry, was prepared to summon a long list of bakers, grain men, grocers and commission merchants for examination. United States District Attorney Cline said that the investigation would be thorough in all details.

The board of directors of the National Retail Butchers and Grocers' Association was scheduled to meet today to consider the question of the effect of the wholesale prices on the middlemen.

**Development Firm Is Sued for \$5,000,000**

By Associated Press.

SAN FRANCISCO, Jan. 11.—Suit to collect claims against the West Sacramento company, a real estate development firm, aggregating \$5,000,000, were filed here today in the superior court by counsel for the Union Lithographic Company of this city. The complainant asks that the company be compelled to assess its stockholders \$99 a share, naming among those of record the Alaska Packers' Association, J. De Sable Jr., Victor Elenoff Jr., the French American Bank of Savings, Keystone Dredging company, Lillenthal & Co., Louis Sloos & Co., Sutro & Co. and others. It is alleged that the West Sacramento company has admitted its insolvency.

**Copies of the letter have been received by several members of the Legislature. While the letter admits that the corporations will submit at this time to something they can't get out of the whole scheme of the thing is declared wrong and its dangers are pointed out.**

**MAY ALTER LAW.**

Out of this may grow a new tax system in California, with an apportion tax commission in charge. Instead of the elected Board of Equalization, which it has failed in this important crisis, the board will be appointed by the state controller of the state of California, who will be able to have complete and satisfactory data at hand relative to the basic valuation of property by the various counties.

Copies of the letter have been received by several members of the Legislature. While the letter admits that the corporations will submit at this time to something they can't get out of the whole scheme of the thing is declared wrong and its dangers are pointed out.

**Development Firm Is Sued for \$5,000,000**

By Associated Press.

BOISE, Idaho, Jan. 11.—A legislative investigation of the various state departments was provided in a resolution adopted by the House of Representatives of the Idaho legislature today. The resolution empowers the speaker to appoint a committee of seven for this work. It was passed over the protest of the Democrats, who declared that such an investigation at this time would interfere with the grand jury investigation and a special examination into the affairs of the state treasurer's office.

The administration has determined to substitute the substitution of an appointed tax committee, with wide authority, in place of the present Board of Equalization? A state committee of which could undertake studies leading to a solution of the problem presented in the proposed property tax, and recommend laws to the legislature. Otherwise, I fear, improvements in our tax system are likely to come more by design. Consideration of this problem by the legislature seems to me to be the most important of all."

The administration has determined to make an increased tax rate on banks, but it is a question of how much. Variations in banking practice make this problem peculiarly difficult.

**Former Lord Mayor's Son Arrested for Fraud**

By Associated Press.

SALEM, Ore., Jan. 11.—The twenty-eighth biennial session of the Oregon legislature convened here today with large Republican majorities controlling both houses. The work of permanent organization was taken up immediately.

W. Lair Thompson of Lakeview, who was chosen at a Republican caucus last night, was assured of election as president of the Senate, but for the speaker of the House a sharp contest between two Republicans was expected to be carried to the floor of that body. The contest lay between Ben Seling of Portland and Allen Eaton of Eugene.

Dr. James Withycombe, the newly elected Republican governor, will be inaugurated tomorrow night.

W. Lair Thompson of Lakeview was elected president of the Senate and Ben Seling of Portland was chosen speaker of the House. Both are Republicans. Interest centered in the contest for speakership between Seling and Allen Eaton of Eugene, both sides having waged a spirited campaign.

Another feature of the message was the recommendation for the establishment of a state legislative board of research, the function of which would be to furnish accurate and unbiased information to electors on measures presented on the ballot under the initiative and referendum.

The governor furthermore favored the creation of the office of public defender, whose duty would be to defend persons accused of crime who had no funds to employ counsel.

**FOR MONTEREY BREAKWATER.**

SACRAMENTO, Jan. 11.—Assemblyman L. E. Boyce of Merced, who has been in the legislature for an appropriation of \$200,000 for the construction of a breakwater at Monterey. Four years

### COLLEGE EDITOR WILL WED. MISS CLAUDIUS

The engagement of Miss Minnie Claudius of Oakland to Raymond W. Jeans of San Francisco, is announced. Miss Claudius is the daughter of Mr. and Mrs. J. Claudius, and a sister of Charles Claudius, a prominent young architect of this city. Jeans is a graduate of the University of California, in the class of 1912, and president of the Architectural Association of the University. He was one of the most prominent men of his class, having been a member of the Theta Xi fraternity, the English club, and editor of the college paper, "The Pelican," in his senior year. No date is set for the wedding.

**NATIVE SONS ELECT.**  
SAN LEANDRO, Jan. 11.—Newly elected officers of Estudillo Chapter, Native Sons of the Golden West, who will be installed on the evening of January 19, are: R. D. Jones, past president; G. Savage, president; F. W. Vliet, first vice-president; M. Perry, second vice-president; O. Z. Best, third vice-president; and Ed Frates, marshal.

**TAXES STILL UNPAID.**

SAN LEANDRO, Jan. 11.—Although payments of taxes as a rule have been made promptly this year, Tax Collector Joseph Peratis reports there is still \$1500 to be taken in.

**Our Bank Drafts**

ASSETS  
OVER  
\$11,000,000

You should know that our bank drafts or cashier's checks are the cheapest way of sending money to any part of the country. Every facility is provided for the quick and easy handling of this branch of our service.

We are also prepared to make collections for you on any part of the world.

## DRASTIC ORDINANCE FOR 'JITNEY' TRAFFIC

### Police Chief Causes Revocation of One Driver's License as Chauffeur

(Continued from Page 1)

company. They have treated us fairly as to wages and conditions. We are here primarily in our own interests. We are most of us men of family, and men with homes and interests now.

"It has been stated that we do not have the qualifications demanded in this ordinance. But as a matter of fact we do have to meet these qualifications. We have to pass a physical examination and prove our proficiency. We have our photographs taken.

#### CARE FOR WEAK.

"Our street car men care for the blind and the aged, for little children. The car men of Oakland have a reputation for politeness and attention to the needs of the public.

"These jitneys stop anywhere and go nowhere. They do not follow any schedule. They don't follow police regulations, and the police cannot enforce regulations, as there are too many of these jitneys. They are like

hooligans. They are not drivers, but passengers.

"We have reports from many of our platform men that many of these drivers have been seen stopping in front of saloons, not once, but many times. That is something which the car company will not tolerate.

"This is unfair competition, as these people pick off the cream of the traffic. There were 42 of these buses in Grove street alone. But we have to Grove street alone. But we have to pay 5 cents, if they want to ride that far."

#### DRIVERS REPLY.

Norman F. Pendleton, representing the jitney bus operators, aroused a storm of protest from the police when he asserted that the men had been sent to attend the council by orders of the traction company, Boweher declared that this was not the case.

Pendleton explained that the jitney man's association desired regulation of a fair character, but did not want to be regulated out of business altogether.

"We will not attempt to raise any legal point if we can get something that is fair—ordinance. But we want fair treatment."

"There is no doubt that some form of trackless transportation is to supplement that at present in existence."

#### ORDINANCE REFERRED.

On the motion of Commissioner W. J. Baccus, it was decided to refer the new ordinance to the city attorney to confer with committees from the jitney bus drivers' association, from the carmen's union, the San Francisco-Oakland Terminal Railways and the Southern Pacific Company and from the two taxi companies in Oakland. City Attorney Boweher recommended arrangements to hold a conference with these committees at an early date. The council resolution referring the matter provided that the city attorney shall report back to the city council next Monday.

"My own idea is that the regulation of this trackless transportation will eventually have to be put up to the State Railroad Commission," said Pendleton. "It is undoubtedly going to supplant the car systems in cities, and that there is no more use trying to stand in the way than there was sense in the part the Indians who stood in front of the first railroad train across the continent to stop its progress."

Pendleton announced that the jitney bus drivers' association will hold a meeting tonight at the Rice Institute to form a permanent organization. G. E. Wright was elected president of the association. Pendleton declared that the jitney men want to organize their own work, to regulate hours and attend to other matters.

#### MUST SIGN WAIVER.

Pending the passage of the new ordinance, in the meantime, to be presented after the conference, the chief of police was instructed to issue no more jitney licenses unless the driver should be willing to sign a waiver, agreeing that as soon as the new ordinance shall become law, he will waive his rights under the old ordinance, and apply for a new license.

In this defense the jitney owners have been assured the active support of these bands of men and women keenly awake to the situation. A spirit of fair play should predominate and overshadow jealousy.

Blister antagonism should give way to a graceful acceptance of the jitney as a transportation factor and more study should be given to the matter of developing its usefulness rather than combating its existence.

"If there must be bonds, photo-roots of drivers, running schedules, moral and financial standards and heavy operating fees, let us ride to Alameda. Please offer to take her there, and as it was well after midnight, and she feared that she had missed her last car, she accepted.

Please drove some 100 miles north, explaining that he lived in Alameda, but had to make just one more trip, and then he would take her out.

#### TO STRANGE PLACE.

Miss Button was sitting in the front seat with him, and on the way out he put his arm around her and said:

"Don't you think you could love me a little?"

Miss Button repelled his advances. At Forty-second street and Broadway Pease drove up to the entrance of the Straub & Pratt saloon and asked if she would not have something to drink. She declined and he entered the saloon with Charles Mann, who runs the automobile supply station nearby.

While Pease was in the saloon, Miss Button hailed Patrolman Van Houtte, who passed by at the time, and asked his protection. Van Houtte took Pease to the Northern Police Station, where he admitted having put his arm around the young woman and having made advances to her. The police took Miss Button to her home. Pease's license was summarily revoked today.

When the city council convened today the corridors leading to the temporary council chamber were packed with street car conductors and motorists. The room had been turned into temporary quarters adjoining the civil service room in the city hall. It was immediately perceived that only about one-fifth of the men present could be packed into this room and it was decided to adjourn to the new council chamber, which has never before been officially occupied by the city commissioners.

The furniture was still partially unpacked, and only a few of the chairs were in readiness. Commissioner Harry S. Anderson issued hasty orders and the crowd was soon accommodated. It was planned to dedicate the council chamber in some formal manner at a later date, and this course will probably be carried out. The council will return tomorrow to the council room.

The jitney owners side of the case was presented to the council in the following communication from George Coker, an operator:

**PROTESTS AGAINST ORDINANCE.**  
"Oakland, California, Jan. 11, 1915. To the Honorable, the Mayor and Members

of the City Council of the City of Oakland, California: Gentlemen: We, the operators of jitney automobiles and drivers for some time past, owners, I wish to emphatically protest against the adoption of such a drastic ordinance as will be submitted for your approval.

"The phenomenal development of this so-called jitney service and its position as a factor in urban and intrurban transportation is too well known to necessitate elaboration. It has proven a problem which must be worked upon by the council, legal basis, and before any legislation is enacted the council should carefully consider the merits of both sides in the controversy.

"Up to this time no bus took passengers upon the streets no stop had ever been taken to place under heavy load, the crews of each 329 odd street cars, the owners of the cars, or the taxi and street car owners of the city. It is not known to us who the individual passengers of the local traction line have been fought to the highest courts before damages could be collected. Yet it is proposed to place the drivers of these jitneys under a license, a fine of \$100 to insure protection to patrons.

#### DEMAND DISCRIMINATES.

"The proposal to photograph each driver and keep the pictures on file in the police department would be to create a new 'rogues' gallery' but there is no movement extending that requirement to the car owners of the S. F. O. T. Ry. whose pictures might be equal to those of the drivers of the jitneys.

"The further plan to tax jitney automobiles on a graduated scale of from 10 up to 100 per month is to be unfair to the jitney drivers who are forced to maintain a more satisfactory schedule than at present.

"I am in thorough accord with the principle upon which this proposed ordinance is founded. The jitney bus requires regulation but not of such a nature that will make it any more difficult for their operation than any other mode of conveyance. It has never been demanded that the management and conductors of street cars should pass the scrutiny of the police department before taking charge to take a street car out of the barns, but it is now considered essential that drivers of jitney buses be held to a high standard of conduct, mentally, physically and morally.

#### FAVORED BY PUBLIC.

"The traveller public is heartily in favor of the jitney service and will stand behind the owners in their defense. For years the traction company has conducted its service in the most efficient manner and we were forced to maintain it.

"Pendleton explained that the jitney man's association desired regulation of a fair character, but did not want to be regulated out of business altogether.

"We will not attempt to raise any legal point if we can get something that is fair—ordinance. But we want fair treatment."

"There is no doubt that some form of trackless transportation is to supplement that at present in existence."

#### ORDINANCE REFERRED.

On the motion of Commissioner W. J. Baccus, it was decided to refer the new ordinance to the city attorney to confer with committees from the jitney bus drivers' association, from the carmen's union, the San Francisco-Oakland Terminal Railways and the Southern Pacific Company and from the two taxi companies in Oakland. City Attorney Boweher recommended arrangements to hold a conference with these committees at an early date. The council resolution referring the matter provided that the city attorney shall report back to the city council next Monday.

"My own idea is that the regulation of this trackless transportation will eventually have to be put up to the State Railroad Commission," said Pendleton. "It is undoubtedly going to supplant the car systems in cities, and that there is no more use trying to stand in the way than there was sense in the part the Indians who stood in front of the first railroad train across the continent to stop its progress."

Pendleton announced that the jitney bus drivers' association will hold a meeting tonight at the Rice Institute to form a permanent organization.

"Competition has for years been presumed the life of trade. In this instance it comes at a particularly opportune time and is here to stay."

The organization of jitney owners formed for their protection and to develop a co-operative spirit among the members, deserves the advice of the council and the police department, together with its assistance in framing some adequate law to cover the operation of the jitneys. But the police, and the council, or special legislation, calculated to play into the hands of its corporation competitor, and if necessary will place a law before the voters as a matter of self defense.

In this defense the jitney owners have been assured the active support of these bands of men and women keenly awake to the situation. A spirit of fair play should predominate and overshadow jealousy.

Blister antagonism should give way to a graceful acceptance of the jitney as a transportation factor and more study should be given to the matter of developing its usefulness rather than combating its existence.

"If there must be bonds, photo-roots of drivers, running schedules, moral and financial standards and heavy operating fees, let us ride to Alameda. Please offer to take her there, and as it was well after midnight, and she feared that she had missed her last car, she accepted.

Please drove some 100 miles north, explaining that he lived in Alameda, but had to make just one more trip, and then he would take her out.

#### TO STRANGE PLACE.

Miss Button was sitting in the front seat with him, and on the way out he put his arm around her and said:

"Don't you think you could love me a little?"

Miss Button repelled his advances. At Forty-second street and Broadway Pease drove up to the entrance of the Straub & Pratt saloon and asked if she would not have something to drink. She declined and he entered the saloon with Charles Mann, who runs the automobile supply station nearby.

While Pease was in the saloon, Miss Button hailed Patrolman Van Houtte, who passed by at the time, and asked his protection. It was planned to dedicate the council chamber in some formal manner at a later date, and this course will probably be carried out. The council will return tomorrow to the council room.

#### FAVOR LEGITIMATE MEASURES.

"The motto adopted by this organization is Safety First."

"We shall move for the adoption of bonds for the drivers of these buses."

"We shall meet with favor any citizen proposing legitimate measures of regulation."

At a recent meeting of the Carmen's Union, Ben Boweher was appointed to lead a committee to appear before the city council and urge the adoption of the ordinance proposed, regulating the jitney buses. In a statement Boweher said:

"We will protest against the jitney buses on the grounds that they are not an asset but a detriment to the city."

"We will appear before the council and urge the adoption of the proposed ordinance because the jitney bus is cheapening the city. No self respecting woman would ride in one of them alone. In the city council this morning the license of one of these drivers will be revoked for

## Problem of the Jitney Bus.

That the jitney bus is a problem—to the traction companies—is admitted by the managements of these corporations. That it will have to be solved soon is certain. The exact method to be used has not definitely been decided, although in this city it is understood there is an ordinance in the making that will regulate and license these independent vehicles of transportation.

The jitney bus has multiplied so rapidly that it is seriously affecting the street car business. In San Diego the management of the system declares its continuance will affect revenues, halt improvements, cripple service, wipe out the borrowing capacity of the corporation, and halt extensions to rural sections. In Los Angeles it is related that by reason of the existence of the jitney, work on two hundred and fifty new cars has been halted and will not be continued until some action is taken fixing the status of these carriers. In San Francisco the jitneys are cutting into the revenues of the United Railroads and in Oakland and sister cities the same condition exists.

Naturally the traction companies are disturbed and are asking municipal authorities to take steps looking toward a lessening of the independent service by regulation. At present the jitney owner pays nothing except his automobile tax. On the other hand the traction company managers point to the fact that they are compelled to pay enormous sums for street paving, that they have to pay municipalities a percentage on gross receipts and the state a similar tax, only higher; that the jitneys only work along streets where street car lines have franchises and that the revenues the street cars should get amounting to interest on millions annually, is being absorbed by individuals and that the ultimate result, unless the new service is checked by regulation, means disaster of financial character, crippling of service, diminution in employment of labor and other serious consequences.

San Francisco is peculiarly situated in this respect, because San Francisco is experimenting in municipally owned street car lines and the jitneys are running in opposition to the public owned utilities to the disadvantage of the latter.

The traction companies do not get much sympathy at the hands of the public either. Every man who has been compelled to hang on to a strap either during the rush hours of morning or evening, declares they are getting just what they deserved because if they had run more cars the jitneys would not have started. The jitney driver runs his automobile, usually one of the cheaper makes, in order to earn money, and he would do the same thing if there had been twice as many street cars in service as the demand. The jitney ought to be thoroughly regulated by ordinance.

They should be regulated so that the lives of passengers will be protected, so that the street railway employees will be protected and so that the general public will be protected.

Optimism may be the keynote of prosperity, as Secretary McAdoo suggests, but the sharp and flats in the rest of the music are usually represented by gold and silver coins.

"Traveler is Robbed of \$215 on the East Side," reads a headline in a St. Louis paper. Serves him right. He should have carried his wealth on the west side.

Announcement is made that many naval officers of the United States are knitting socks for the soldiers in the European trenches. It is fair to assume that this work is done at the regular afternoon tea parties aboard ship. Wonder if the commanders, lieutenants, commanders, ensigns and others pass the snuff box as our grandmothers used to?

Idaho's new governor believes in economy. In his opening message he declared the burden of taxation must be lightened and the work must begin under the capitol dome. Then he suggested that his own salary of \$5000 a year be cut to \$3600. Happy Idaho!

## Has State Been "Overplayed"?

Warnings sent out by the California Commission on Immigration and Housing, and Women's Unions in San Francisco telling people east, especially women, to keep away from this State if they are looking for work, appears to be timely in the light of conditions. It is related that 10,000 applications for employment with the Panama-Pacific Exposition Company have been made, although there are but 1000 places to fill and an additional statement is made by the Association of Collegiate Alumnae that labor conditions, especially among women, have never been so bad, while another authority declares there are thousands of unemployed stenographers and office assistants out of work in San Francisco alone.

These circumstances and conditions lead us to the query: "Has the State been 'Overplayed'?" In common with other States west of the Mississippi, California is optimistic. Every new industry, every new development is utilized as an excuse to demonstrate to our friends back east that this is the modern Cannaan and too often these stories may be the cause of a larger influx of men and women who work than the industries of the State can absorb.

Advertising is a splendid aid to growth of towns, cities, counties and states when properly used, but when improperly utilized is the cause of annoyance and in instances mentioned, absolute inconvenience if not distress, to many. In the case of the Panama-Pacific Exposition many men and women have come to the coast attracted by what they believed to be a large demand for help. As a matter of fact there was always local help enough around the bay for all needs of the exposition company, and while many men were employed, hundreds who came here from other places were disappointed.

The expenditure of a comparatively small sum of money in disseminating the information eastward that ample labor was available would have doubtless kept many persons from coming here and saved them and the municipalities to which they have flocked much annoyance.

So far as the legitimate resources of our State are concerned, THE TRIBUNE does not believe they have been "overplayed" or exaggerated. But it looks as if this is the time to serve notice on the people outside that so far as labor is concerned there is plenty and to spare at this time. Further, we believe it would be a splendid idea in setting forth our advantages to confine ourselves strictly to our actual necessities. Let future advertising of California be along specific and not general lines and written so there may be no misunderstanding its purport and statement. If this course is not adopted we shall be confronted with still graver complications.

We should have indulged in the statement that the Russians have knocked the stuffing out of Turkey, but another fellow beat us to the expression.

A "jitney" bus derives its name from "jitney," meaning the smallest coin in circulation in Russia and may be said to represent a small sum, easily converted in our own vernacular as a "nickel" bus, the fare of five cents a ride being synonymous with the small Russian piece of money.

Seattle has a chauffeur named Hellwagon, who has asked the courts to permit him to change his name, thus showing a regard for the proprieties highly commendable.

An Eastern woman accused by her husband of having negro blood in her veins and abandoned for the reason he believed such to be the case, is suffering so much anguish as the result of her distressing condition that she is syndicating her suffering in a chain of newspaper stories at the usual rates.

## WHAT'S IN A NAME!

BY THE OAKLAND TRIBUNE CARTOONIST.

## Twenty Years Ago Today

## Optimistic and Otherwise

OAKLAND COMES INTO ITS OWN.

A number of most interesting and impressive services were held at the First Methodist Episcopal Church under the direction of Rev. Mr. Yatman, the evangelist from New York. Mr. Yatman deprecates anything somber in Christian life and experience. No Christian, he says, should carry a face as long as a yard stick, nor as cold as a grave-stone.

The following officers of the Liberal and Spiritual Society were elected: Colonel Jesse Tobias, president; Mrs. Cowell, first, and R. E. Langworth, second vice-president; F. P. Cook, secretary; Jennie Jones, Mason, treasurer.

Oakland is going to lose "General" Kelley. For some reason, shortness of the grass or a desire to reap in a larger field, the eminent weaver decided to abandon Oakland to its fate, and bestow his fostering care on the city across the bay. The Industrials have met with considerable success in securing work and at present there are but few men in the local corps not engaged.

Frank K. Mott, who was appointed to succeed Henry P. Dalton as Councilman from the First ward, took his seat at the meeting of the City Council last night. Mr. Mott is a young man and was born in San Francisco in 1865. He came to this city with his parents when but four years of age and has resided here ever since. Mr. Mott states that he is in favor of opening all streets and extending them to the waterfront. He also believes in extending street car lines as far out from Oakland as possible in order that the residents on the outside may have an opportunity of dealing with our merchants. Mr. Mott is a Republican and a popular young man.

## Politician Poor Speller

A country politician in New Jersey was elected commissioner. One day he visited a school and told the teacher he desired to examine the boys and girls.

A spelling class was performing, so the commissioner said he would inquire into the proficiency of that organization. The teacher gave him a spelling book and the students lined up in front of the mighty educator.

He thumbed the book. Then, pointing to the first boy, he said.

"Spell eggit."

"E-g-g-p-i-t," slowly spelled the boy.

"Wrong," said the commissioner, and pointing to the next boy:

"You spell eggit."

"E-g-g-p-i-t," spelled the boy.

"Wrong. You spell it."

The next boy spelled it the same way, and the next and the next.

"Bad spellers, these," commented the commissioner to the distressed teacher.

"Why, Mr. Commissioner," she protested, "they have spelled eggit correctly."

"They have not."

"Will you let me see the word in the book?" the teacher asked, tearfully. "I am sure they have."

"Here it is," said the commissioner, and he pointed to the word "EGG."

## Eleven White Elephants

A popular society woman announced a "white elephant party." Every guest was to bring something that she could not find any use for and yet too good to throw away. The party would have been a great success but for the unlooked-for development which broke it up. Eleven of the nineteen guests were their husbands.

## Vaccination for Asthma

Vaccinating a child with whites of eggs to cure it of asthma is the curious advance in medical knowledge worked out by Dr. Fritz B. Talbot of Boston, and pointed to him recently.

He has proved that asthma in some children is a form of the body reaction called by the doctors, "anaphylaxis," that it occurs in the children as the result of susceptibility to protein substances in eggs, or, as mothers would say, is a manifestation of "egg poisoning," and these children can be immunized against egg poisoning and freed of their asthmatic attacks by repeated doses of egg white.

When the skin has been cleaned with soap and alcohol the egg white is rubbed into a slight scratch.

## Urgent Call for Doctor

A young surgeon received late one evening a note from three of his fellow practitioners.

"Please come over to the club and join us in a game of bridge."

Henretta, dear," he said to his wife. "I am called away again. It is an important case—there are three doo-dads on the spot already."

## Meaning of Hatred in War

Worse than war is the extreme hatred of one people for another, says the Boston Congregationalist.

Oh, pshaw! that hatred thing is the soul of war and always has been. The hatred just now cropping out shows once more what nuttles we allow a few leading men to make of us common folks. It's the business of the German emperor's gang to make the Germans hate the English. It has been the business of the English aristocrats for years to make the English hate the Germans and forget their own awakening democracy.

When it's all over there'll be just as many aristocrats on both sides, toasting each other, going yachting, and hunting, and gambling together, while the supply of common folk will be some millions less. And those that are left will be slaving their finger ends off to pay the war price and keep the same old gang in wine, gold lace and easy money. But, strange to say, German plain folks won't hate the English as hard as they thought they did, and the malignant aristocracy English common people hold toward the Germans now will take on a much milder flavor.

"What fools we mortals be!" is an old gag, neighbor, but it's one roaring big truth!—Wichita Beacon.

## GERM OF GETTYSBURG SPEECH

Hay referred to Browning's suggestion that the North should subjugate the South, exterminate the whites, set up a black republic, and protect the negroes "while they raised our cotton."

"Some of our Northerners seem bewildered and dazzled by the excitement of the hour," Lincoln replied. "Poor little folks inclined to think that this war is to result in the entire abolition of slavery. Old Colonel Hamilton, a venerable and most respectable gentleman, impresses upon me most earnestly the propriety of enlisting the slaves in our army." (I told him his daily correspondence was thickly interspersed by such suggestions.)

"For my own part," he said, "I consider the central idea pervading this struggle is the necessity that is upon us of proving that popular government is not an absurdity. We must settle this question now, whether in a free government the minority have the right to break up the government whenever

they choose. If we fail, it will go far to prove the incapability of the people to govern themselves. There may be one consideration used in stay of final judgment, but that is not for us to use in advance. That is, that there exists in our case an instance of a vast and far-reaching disturbing element which the author of no other free nation will probably ever present. That, however, is not for us to say at present. Taking the government as we found it, we will see if the majority can preserve it."

This statement, spoken offhand to his secretary, reveals the foundation of Lincoln's judgment on the War of the Rebellion: there was at stake something more precious than the preservation of the Union, something more urgent than the abolition of slavery—and that was democracy. Two years and a half later, in his address at Gettysburg, he put into one imperishable sentence the thought of which this was the germ—from the Diary of John Hay, edited by William Roscoe Thayer for Harper's Magazine.

## HEART WOUND INSTANT DEATH

Charles Mayo, a Chicago chemist, experimenting with death to determine for the benefit of science, whether the victim of a shot through the heart could hear the report of the pistol. He left a note beside his body reading as follows:

"If I hear the sound of the shot I will make a mark on this envelope. On making that mark I shall concentrate my whole being. If the mark is there it will be known definitely that a man with a bullet in his heart does not die at once."

When found there was no mark on the envelope which leads to the conclusion that a man with a bullet through the mitral valve either dies instantly in much the same manner as if struck by a bolt of lightning, or else the paralyzing effect of the missile is such as to destroy the sensibilities and prevent the nerves telegraphing to the brain the impulse made

on the auricular mechanism by the vibrations of the atmosphere resulting from the explosion.

The experiment from the standpoint of the experimenter is an interesting one and will no doubt cause the usual discussion among scientists interested in such matters. It has always been conceded that shots through the heart caused instant death, although observation has demonstrated that following the infliction of the wound there was certain action of the nerves causing the body to move or the limbs to contort, but this has been held to be spasmodic action, involuntarily in character. Generally speaking, it looks as if the chemist has established the fact that death following destruction of heart action is as instantaneous as if inflicted by electricity, or nearly so, because in matters of this sort seconds can be divided many times in measurement of interval.

## OREGON AIDS ITS FARMERS

For the purpose of bringing intending buyers of farms and farming lands in touch with owners of such property, the Oregon State Immigration Commission has prepared a large list of holdings offered for sale in all parts of the state. The list will soon be printed in booklet form. In the meantime mimeographed copies of the list are sent to all inquirers, some from within the state and many from outside. Listings and answering of inquiries are in the hands of J. W. Brewer, manager of the Farm Lands Bureau of the Portland Chamber of Commerce.

Classified, the list includes wheat farms, stock ranches, dairy farms, hay ranches, diversified farms east of the Cascade mountains, diversified farms west of the Cascade mountains, unimproved and logged-off lands in Western Oregon, light timber and brush lands and irrigated tracts. Every county in the state is represented, except Curry county. Over 500 farms and farming tracts are listed, ranging in price from \$10 to \$500 an acre. Additional listings are desired of large tracts that can be subdivided and sold to settlers at prices and on terms attractive to men of small means.

Manager Brewer reports that large area of stump land thirty miles from Portland will be subdivided by the owner to men of strong vertebrae and willing hands.

All tracts listed with the immigration commission are appraised and none is accepted where the value is not placed at reasonable figures by conservative men familiar with the lands. No commissions are received or shared in, the desire being to bring the buyer and seller together and place satisfied settlers on Oregon lands.

## MUST PAY WAR TAX

The absence of a 50-cent "war tax" stamp on a material bond accompanying a bid for the improvement of Mission road, between North Broadway and Baldwin street, may cost the city something over \$2000.

The job bid is on to connect the city streets with the county highway system—an important and extensive piece of work. The lowest bidder was A. L. McCrea, whose figure was \$56,547.35. The next man was F. W. Whittier, who bid \$55,912.78. Yesterday Mr. Whittier asked the Board of Public Works to knock out Mr. McCrea's bid and award

the contract to him, alleging that his rival neglected to put one of the new-fangled internal revenue stamps on his accompanying bond, as required by law.

Strictly interpreted, the absence of the stamp invalidates the bond and the bid seems to obligate the city to take the next lowest. It was referred to the City Attorney for an opinion.

Internal Revenue Collector Carter when appealed to said that the courts would have to decide the point, adding that at the time of the Spanish War, it was judiciously ruled that a document was invalid if unstamped.—Los Angeles Times.

## SCIENCE JOTTINGS

Springs and clips for the outside of shoes hold them stretched properly on a new rack without the use of last-shaped trees.

A new bulb-shaped ladle for molten metals has an opening in one side so that its contents can be poured more accurately and at the same time leave the dross behind.

An explosion engine with an axially revolving cylinder that constitutes its own gear and exhaust valves, reversing gear and water pump has been invented in England.

The inspection of sugar for impurities at night has been made possible by the mercury vapor lamp, the rays of which detect them as will no other artificial illuminant.

By the invention of a device for the purpose it is possible to use the heat contained in slag thrown off in making pig iron to produce steam for low pressure turbines.

Electrical apparatus has been invented to automatically give warning that a chimney is smoking by illuminating a sign first and, if this is not heeded, by ringing a bell.

A novel wrench that will hold a nut of almost any size is made of a single piece of steel, the handle being split so that the jaws are sprung together as a strain is applied.

In Persia there grows a weed the seeds of which have long horns that enter the nostrils of grazing animals and frequently kill them by preventing them from eating or drinking.

Designed for carrying packages weighing up to 25 pounds a new bag has a peculiarly designed frame that supports a basket in such a position that its load will not disturb the balance.

## OYAMA NO MUD BRICK

Franklin Mathews represented a paper during the Russo-Japanese war, and one day he succeeded in breaking through the news censorship and reaching Field Marshal Oyama. The interview was brief but extremely courteous, and the jubilant correspondent hurried back to prepare the story for his paper. In the course of it he used this expression: "Marshal Oyama is a brick."

The letter was duly passed along to the official translator, and presently Captain Kanaka, of the marshal's personal staff, called upon the correspondent. "Marshal Oyama presents his compliments," said the

### CONCEALED WEAPON WAS LEADEN WEIGHT IN WOMAN'S GOWN

It was an odd accident that kept Mrs. William Thomas home from a tea dance, and in a darkened room for several days, whence she is just emerging. It very nearly destroyed the sight of an eye, and proved the danger of weapons concealed in the costumes of charming women.

Everyone knows that the victims of hatpins were many before they had confined itself with them, investigated and cut their length. In the case of Mrs. Thomas the weapon was a lead weight in her gown.

Mrs. Thomas had invited guests for the Fairmount tea dance Friday afternoon. The evening before she had dressed for dinner at home. The tunic of her gown was laden with the usual lead weights that make costumes fall in graceful lines these days, and in the size of 50-cent pieces were scattered. They are hidden in hem of the season's gowns and in the linings of coats, wherever their weight may lend grace to a costume.

Mrs. Thomas caught up her tunic to shake it out and the heavy hem flew in her face, a weight striking her squarely in the eye. It struck across the retina and blinded her. But, happily, not permanently, though the physician were called in for her right at first. Social engagements were canceled, among them the one for the tea dance, where the story of the accident was told.

MISS MILLER A HOSTESS.

Miss Annie Miller gave a luncheon at her home in Piedmont last Thursday, entertaining a coterie of friends of Mrs. Norman Lang (Nellie McKeek) who is a guest at the McKee home from Portland, and in whose honor the luncheon was given.

Among Mrs. Miller's guests were Mrs. E. E. Adams, Mrs. Spens Black, Mrs. Charles Winship, Miss Janet Haight, Miss Lucy Herrick, and Miss Violet Whitney, who recently returned from an extended and interesting sojourn abroad.

TEA AT THE OAKLAND.

Miss Jane Rawlings was hostess at a small informal tea at the Hotel Oakland last Friday evening, entertaining Mrs. Wallace Alexander, Mrs. Charles Hubbard, Mrs. William Phelps, Mrs. E. H. Lehman, Mrs. Stuart Rawlings and Mrs. Mona Crellin. Miss Rawlings and her mother make their home at the Oak-Mind.

PLAN RECEPTION.

Mrs. P. R. Boone is planning an informal reception to be given at her home in Duran Avenue in honor of her son and daughter-in-law, Mr. and Mrs. Charles Philip Boone, who have just returned from a tour of Europe and the East.

They arrived in New York last month and spent several weeks there before crossing the continent.

TO GIVE BALL.

The Ladies' Relief Society, which gave a brilliant and successful ball last evening, is to give a second ball, to be given on the evening of February 12, at the Hotel Oakland.

It is a student at Oxford.

Members of the Adams Point Bridge Club were entertained this afternoon by Miss Ethel Smith at her home in Victoria street. Among the guests were Mrs. Frank Greenwood, Mrs. J. C. Olds, Mrs. Louis Dudley Manning, Mrs. E. N. Englehardt, Mrs. Frank B. Ogden, Mrs. Elsie Stoddard, Mrs. George Child, Mrs. Anna Sheldt, Mrs. A. M. Miel and several others.

MISS DEMING'S DANCE.

Miss Dorothy Deming's dance on Saturday evening, was for 40 of the younger many of the guests from San Francisco, who were assembled by her mother and sister, Mrs. Henry Seth Deming, and Mrs. Gardner Perry Pond.

The Deming home, which is the former Frank Brown residence, was attractively decorated for the occasion.

PLAN RECEPTION.

Mrs. Wallace Alexander, Mrs. Charles Hubbard, Mrs. William Phelps, Mrs. E. H. Lehman, Mrs. Stuart Rawlings and Mrs. Mona Crellin. Miss Rawlings and her mother make their home at the Oak-Mind.

IN BELGIUM.

Mrs. Herbert Kitteridge has received most interesting letters from her son, Tracy Kitteridge, who is among the few Americans engaged in relief work in Belgium. He is a student at Oxford University, and early in December to spend a six weeks vacation at the relief camp in Belgium.

But the need for the assistance to the hospital corps is so great that he may decide to remain several months instead of returning to the United States.

Mr. Kitteridge is in his second year at Oxford and was enjoying a summer vacation in Germany when war was declared. He reached England in October to resume his studies.

DARNEY-HOGAN WEDDING.

Miss Helen Dohmey has decided on a yellow wedding for February 2 when she will become the bride of Thomas Hogan, the Darney home in Webster street.

Miss Hogan's maid of honor and the bride's maid will be Miss Agnes Black and Miss Etta Schrock.

They will be gowned in yellow and yellow flowers will be used in the decoration. Frank Dohmey will be best man, and the usher will be William Haydock, Ellinore and Bernhard Marshall.

Both young people are very popular and there will be a round of informal entertainments in their honor. The Dohmey family is a well-known family and are kin of the Dohmey of Virginia who are the F. F. V. The Hogans are prominent in Oakland, and there is an interesting family of them to welcome the bride.

MISS FARRIER ILL.

Miss Emma Farrier has been confined to her home for the last fortnight by illness, but is now on the road to recovery. Her friends have sent many messages of sympathy and boxes of flowers to the invalid.

TO END VISIT.

Lieutenant and Mrs. Lewis Dougherty, U. S. A., who have spent the holidays with General and Mrs. William Dougherty at their home in Fruitvale, will leave to rejoin their regiment at one of the eastern armories. They have been informally entertained during their stay, and have spent much time with friends at the various posts about the bay.

MISS GRIMES LUNCHEON.

Miss Alice Grimes gave one of the pretty luncheons last evening, entertaining in home of Mrs. Norma Lang of Oakland who is renewing friendship in Oakland. Invited to meet her were: Mrs. W. G. Henshaw, Mrs. George Wheaton, Mrs. Philip Bowles, Mrs. Spens Black, Mrs. Fred Bristow, Mrs. Fred McKee, Mrs. Harrison Clay, Mrs. Goss, Winship, Miss Annie Miller, Miss Violet Whitney and Miss Bertha Wilcox.

TO GIVE BRIDGE PARTY.

Mrs. George Friend will be hostess at a bridge party this afternoon at her home in Thousand Oaks. It will be an informal affair for about 40 of the Oakland and Berkeley friends of the hostess.

MRS. EASTWOOD'S GUESTS.

Mrs. Burr Eastwood was hostess this afternoon at the home of Hill branch of the baby hospital in an informal and sewing bee. The members who meet frequently to sew for the children care.

MONDEL DISCUSSES SUFFRAGE.

By Associated Press.

WASHINGTON, Jan. 11.—Representative Mondell of Wyoming, criticized President Wilson's answer to the suffrage question last night in an address before the second annual meeting of the Congressional Union for Woman Suffrage. He insisted that it was the duty of Congress to enfranchise the women, instead of leaving it to the states, as advocated by the President. Mr. Mondell discussed the Mondell-Bristow resolution, proposing an amendment to the federal constitution to enfranchise women, which is to be voted upon in the House Tuesday. While he expressed doubt as to the outcome of the vote, he declared he was confident of the resolution's ultimate success.

## The Housewives Business

By LILLIAN RUSSELL

(Copyright, 1915, by Lillian Russell)

THE housewife's business! What a multitude of duties that term implies! They begin when the household arises in the morning and do not cease until the last light has been turned off at night. There is no business that is so exacting in its demands. No trade or profession has a broader field of activities. It covers not only five and a half or six days each week, but seven. It demands a large fund of mental and physical strength.

The housewife's business may be irksome and monotonous, or delightful and interesting. It depends upon the housewife and what she knows about her business.

The housewife's primary asset lies within herself. It is her mental and physical strength. Every woman who is in business first takes a careful stock of his assets. If, after engaging in business his assets do not grow, he knows that something is wrong.

The assets at the command of the housewife are just as important a factor in her business. Unless she has the requisite health and strength to make the right beginning her future is not bright. If she fails to grow in strength and increase her capacity for managing her business there is something wrong, and it demands immediate attention.

The housewife is the titular head of the home. She may have many servants or none, but there is always a large demand on her and her resources. If she is to meet these demands, she must put herself into excellent physical condition.

It must be readily apparent that the first part of a housewife's business is the business of keeping herself well and strong. For that reason she must treat herself as the most valuable part of the household machinery. Without the system collapses. She is the mainspring that keeps the whole works running.

The demands upon the housewife are liable to be so heavy that she neglects herself. This neglect may not fully incapacitate her, but her duties gradually become more burdensome and finally may be too heavy a load for her to bear.

Do not overestimate your capacity for work. There is only one way to do this. Devote a certain period of each day to yourself. Make that period count for the development of health and strength.

Exercise in the fresh air, take plenty of rest, and do not forget that you need a certain amount of recreation through which your mind can be diverted from the household duties.

Do not overestimate your capacity for work. There is only one way to do this. Devote a certain period of each day to yourself. Make that period count for the development of health and strength.

Exercise in the fresh air, take plenty of rest, and do not forget that you need a certain amount of recreation through which your mind can be diverted from the household duties.

Remember: The time devoted to yourself is not lost. It means a saving when you take up your household work. When you feel fit you can accomplish the most work with the least possible effort.

ROSE—If you have such a terrible cold and cough and have such pains I should certainly advise you to consult a physician immediately.

It is dangerous to get a cold on the lungs. You should get attention immediately. As yours is entirely an internal trouble, I cannot help you. Don't hesitate a minute, however. See a doctor right away.

TO GIVE BALL.

The Ladies' Relief Society, which gave a brilliant and successful ball last evening, is to give a second ball, to be given on the evening of February 12, at the Hotel Oakland.

It is a student at Oxford University, and early in December to spend a six weeks vacation at the relief camp in Belgium.

## MILLIONAIRE M'CREERY IN CRASH

FILIPINO BILL  
DEFENDED IN  
SENATE

Secretary Garrison, Spokesman, Calls Measure Simply Provisional.

By Associated Press.

WASHINGTON, Jan. 11.—Why the administration is insisting upon the passage of the pending bill to enlarge the measure of self-government of the Philippines Islands was explained to the Senate Philippine committee today by Secretary Garrison.

In a long prepared statement he declared the measure had been improperly termed "the Philippine independence bill," and that it was merely a step with proper safeguards toward self-government and exactly in line with promises held out to the Philippines for years by the United States.

The preamble, which would declare the intention of the United States ultimately to grant complete independence to the Islands, Secretary Garrison said, was but a repetition of pledges already made over and over again.

"What the next step should be, when it should be taken, what conditions would properly surround the grant of complete independence and other like speculations, it seems to me are idle, and their consideration at this time would only be confusing," said Garrison.

In view of "the recent exaggerated accounts of petty disturbances in the islands," the secretary said it was particularly interesting to note that former President Taft, when governor-general of the Islands, had said that the results of the attitude of the American press and of the American merchant in his hostility to the Filipino, "every small Ladron fight every discomfit the constabulary suffered, was exaggerated and made the basis for inference that conditions in the Islands were retrograding rather than improving."

DUAL STANDARD.

"What the United States should do concerning the Philippines," said Mr. Garrison in opening his statement.

Here Secretary Garrison traced the history of the Philippines—some 34 islands with a total population of between eight and nine million, mostly of Malay origin—pointing out that the revolt against Spain, a century later, over the issue of the governor-general, which would make its consideration inappropriate to consider the matter at this time. It is not too strong a statement to say that there were every nation on earth, including our own, at that time that the Filipinos would have been compelled to consider the matter.

The bill is so framed, the wisdom and propriety of it can only be determined by keeping in mind the two viewpoints first adverted to and by considering the history of our relations to the Philippines and the present situation therein."

Wind God Takes Sunday Off  
Summer Sun Beams All Day

A bit late, but none the less welcome, old Sol beamed his 1915 Sunday debut yesterday and the population of the bay cities streamed out from their city caves to welcome the old fellow.

It was such a California winter day as tourist agencies advertised. The public accepted it as a harbinger of spring and the 1915 exposition and like most California publics insisted upon getting out of doors and showing the enthusiastic friendship for Nature.

Transportation officials, who had been worrying over the Bay bus competitor, forgot all their troubles in frantic efforts to meet the sudden demands of an army of merry pleasure seekers who wanted to be taken some place out of doors and didn't much care where.

As usual the bay cities broke about even in the exchange of Sunday visitors, thousands crossing from this side to visit the Cliff House, Golden Gate Park and the exposition site, and thousands of others coming to the east bay cities to motor along the Foothill boulevard and skirt hill and dale.

The municipal boathouse au-

thorities on Lake Merritt were swamped with pleasure-seekers, who manned sailboats, canoes, rowboats and everything that would float on the placid bosom of the city's incomparable pleasure lake.

Thousands of picnic parties took advantage of the weather to scatter over the Berkeley and Claremont foothills and renew acquaintance with summer trails and lovers' lanes.

The omnipresent Bay buses sprung from every where and took you anywhere, the the more of them that appeared on the scene the more the supply of passengers seemed to increase.

"Fine day," observed the cop on the beat as he returned your salute.

"Fine day," observed the waiter who served your lunch and "Great weather," echoed every Jack and his Jill, California, reviving under enriching rains of the weeks before, turned her face upward yesterday and smiled in the face of the sun like a child enjoying the driving process that follows its mighty bath.

Today it went back contentedly to its work-day and offered no remonstrance when Pluvius returned to his job also.

Bill you have before you are not known or understood by our people. If they had its provisions in mind, they would laugh in derision at the way you suggest that it is inadvisable to consider this bill.

We have entire hope," he said, "that the Filipinos will accept this added responsibility, and make much good use of the opportunity as to demonstrate its wisdom and prepare the way for the next onward move."

"We directed attention to the fact that to the President of the United States was reserved the power to forbid the enactment of any bill, even though it be passed by the legislature over the veto of the governor-general, and that trade relations between the United States and the Islands would be subject to the final decision of Congress.

It is difficult to see what proper objection can be made to the provisions of the bill itself," said the secretary in conclusion. "If we consider it, as have insisted before that we should, in view of our duty to ourselves and to the nation, and in view of our obligations, to the Filipinos, the wisdom and propriety of it can only be determined by keeping in mind the two viewpoints first adverted to and by considering the history of our relations to the Philippines and the present situation therein."

## MALAYSIAN STOCK.

Here Secretary Garrison traced the history of the Philippines—some 34 islands with a total population of between eight and nine million, mostly of Malay origin—pointing out that the revolt against Spain, a century later, over the issue of the governor-general, which would make its consideration inappropriate to consider the matter at this time. It is not too strong a statement to say that there were every nation on earth, including our own, at that time that the Filipinos would have been compelled to consider the matter.

The bill is so framed, the wisdom and propriety of it can only be determined by keeping in mind the two viewpoints first adverted to and by considering the history of our relations to the Philippines and the present situation therein."

## INDEPENDENCE BILL.

Mr. Garrison said in answer to question by Senator Lippitt that the Philippines constituted a military liability upon the United States and were of no benefit whatever, from the point of view of the War Department. He declared he was not speaking for the navy department, however, and Chairman Hitchcock announced that navy officials might be summoned to testify to the matter.

Senator Lippitt asked if the secretary referred to Japan. "To any nation in the Orient," responded Mr. Garrison, "it's a mere matter of transporting troops. We have but 21,000 or 22,000 men there and that force would be insufficient to meet an invasion."

The military situation in the Islands, the secretary said he did not believe the United States could hold them against any first-class power that had an organized military force nearer to the Islands than the mainland of the United States, saying that, however, Secretary Garrison added, he was not taking into consideration what the navy might be able to do.

Senator Lippitt asked if the secretary referred to Japan. "To any nation in the Orient," responded Mr. Garrison, "it's a mere matter of transporting troops. We have but 21,000 or 22,000 men there and that force would be insufficient to meet an invasion."

The military situation should not have weight in determining action on the bill and the obligation of the United States to the Filipinos should be met, he said, regardless of any danger of foreign complications.

Public hearings on the bill were then closed.

The committee will begin executive consideration of the bill immediately and Chairman Hitchcock indicated it would be favorably reported within two weeks.

AUCTION SALES  
J. A. MUNRO & CO.AUCTIONEERS.  
107 Clay street, corner tenth street; phone Oakland 4511, will pay highest price paid for merchandise, furniture, etc., or will sell on commission. Sale every Friday.

Bankrupt Auction Sale

Of the stock and fixtures, formerly S. Spring's, at 1067 Clay St., near 10th St., Oakland, Tuesday, January 12, at 10 a. m.

Comprising, in part: Wires, hair switches, shell goods, brushes, combs, manufacturing articles, mirrors, carpets, rugs, silent salesman cases, chairs, tables, etc., etc.

Open for inspection Monday afternoon, J. A. MUNRO &amp; CO., Auctioneers.

Cloth Auction Sale

Creditors' sale of the stock formerly Kneip, of nearly 160 pieces of the finest imported and domestic goods, in lengths for gents' suits. We will also sell the stock of cloth for ladies' suits, formerly J. M. Mason. Also the fixtures. Sale Tuesday, January 12, at 10:30 a. m. Open for inspection Monday afternoon, J. A. MUNRO &amp; CO., Auctioneers.

Bicycle Auction Sale

Of a complete line of new bicycles, trees, states, supplies, tools, paints, chain, fixtures, etc.

Sale Tuesday, January 12, at 10:30 a. m. Open for inspection Monday afternoon, J. A. MUNRO &amp; CO., Auctioneers.

FIND FLAW IN  
BRITISH  
REPLYU. S. Not Satisfied With the  
Answer on Shipping  
Rights.

WASHINGTON, Jan. 11.—The United States government, it became known today, is not altogether satisfied with the note of Sir Edward Grey, giving Great Britain's preliminary reply to President Wilson's protest concerning the treatment of American commerce by the British fleet.

While gratified that Great Britain admits the justice of practically all the principles of International law cited in the American note, officials reiterated today that the chief difficulty had been England's neglect to make her actual practice square with the previously accepted rules of International law.

The house burglar is the lowest type of criminal and the greatest of all cowards. He plies his trade in the dark, only where he knows the occupants to be away from home. He lives in terror of being caught.

The chances against him are ten to one, even counting the fear that some woman will hold for him. He depends upon this fear, when discovered, to aid him in getting away.

"If women would depend upon these facts and have presence of mind upon finding a burglar in their home, instead of screaming and falling in a faint, as some do, the lot of the house-breaker would be harder and his number fewer."

This is the advice to women of Oakland of Mrs. O. J. Shurra, 524 East Seventh street, who surprised and captured Thomas Elliott Merrick, ex-convict and former soldier, in her home last Friday night. The man was caught in the basement of her home.

Mrs. Shurra caught the man in the basement of her house and called to her husband, "You've got your revolver, come quick."

Her husband was not possessed of a revolver, but he took the cue from his wife's infection and pretended to have the man covered. The ruse was successful.

## NEW NATION'S CAPITAL

SHIP PURCHASE  
BILL IS OPPOSEDRepublican Senators Plan to  
Prolong Debate to Kill  
Measure.

By Associated Press.

WASHINGTON, Jan. 11.—The District of Columbia appropriation bill was again today up for consideration in the Senate and Democratic leaders were ready, if opportunity presented, to force a vote on the measure during the day.

With the district supply measure out of the way, Senate leaders, including Senator Fisher, who is piloting the government ship purchase bill through the Senate, are determined to press the measure for general debate. Although the ship purchase bill has been before the Senate for several days as the unfinished business, barring the supply measure, but little progress has been made on it, the district appropriation bill already having consumed three days of debate.

Republican leaders in the Senate, including Senators Root, Gallinger, Lodge and Burton, who are opposing the spending bill, are prepared to continue their attacks on the measure when it is called up for consideration. The Republicans insist that the bill should not be passed at all, and they have decided their intention of prolonging discussion of the measure as much as possible.

The fact that but little progress has thus far been made on the administration legislative program is causing the Democratic leaders considerable apprehension and they are more firmly determined than ever today to employ every parliamentary effort to expedite the program, even to the extent of holding night sessions if necessary.

FINAL VOTE TODAY ON  
TEST FOR IMMIGRANTS

By Associated Press.

WASHINGTON, Jan. 11.—The report of the conference committee on the immigration bill with the provision for a literacy test for aliens seeking admission to the United States retained was before the House and Senate today for final action.

It was believed that opposition would develop in the Senate to the action of the conference in striking out the amendment to exempt Belgian agriculturists from the literacy test for a period of one year after the European war. Despite this, however, Democratic leaders indicated that the conference report will be adopted. Another amendment striking out in conference was that to exclude Africans from the literacy test, but no opposition was expressed on that account.

The immigration bill will be sent to the White House within a few days for President Wilson's signature. Opinion is divided among members of Congress as to what the President will do with the measure because of his objection to the literacy test, but some Democrats think he will veto it. When the bill is sent before him the President will fix upon a date when supporters and opponents of the measure will be heard.

FOREIGN MISSIONARIES  
STARVING, IS MESSAGE

By Associated Press.

WASHINGTON, Jan. 11.—Hundreds of missionaries and other religious workers in the Holy Land are facing starvation, according to reports received yesterday by Rev. Godfred Schilling of the Franciscan Order, commissary general for the Holy Land in the United States.

The reports show, according to a statement by Father Schilling, that the Turks have turned the Christians out of nearly all their convents in Armenia, Upper Syria and Cilicia, leaving them in possession, however, of their convent of St. Saviour in Jerusalem, and the convent of the Annunciation at Nazareth. In Jerusalem flourishing communities of the Assumptionists, Dominicans, Fathers of Zion and the White Fathers, the Benedictine and Carmelite Sisters, the Poor Clares and other orders, are said to have been put out into the streets.

In response to early reports of trouble the matter was taken up with the state department. Thus far, however, efforts to arrange for the care of the sufferers have been unavailing.

GARRISON ENDORSES  
LARGER ARMY BILL

By Associated Press.

WASHINGTON, Jan. 11.—Secretary Garrison, in a letter to Senator Chamberlain, chairman of the Senate Military committee, made public last night, endorses the bill which the Oregon senator has introduced to carry out Mr. Garrison's recommendation for the increase of the regular army.

The Chamberlain bill would authorize maintenance of the mobile army at its present strength with an increase of 1,000 officers. It would raise the enlisted strength of the line of the army, exclusive of the Philippine scouts, to 103,000, and would provide a mobile army of 50,000 for continental United States. With the Philippine scouts, the total strength would be 103,600. At present the enlisted strength, including the scouts, is 87,450.

Mr. Garrison points out that the increase sought would bring the forces of the continental United States up to an "all-around" that would afford peace training for officers with such units as they would be called upon to direct in time of war.

HUGEST RELIEF MAP  
MADE FOR GOETHALS

By Associated Press.

WASHINGTON, Jan. 11.—Members of the Isthmian Canal commission had before them today, for inspection what is said to be the largest relief map ever made representing the Panama Canal on a scale of one foot to the mile. The map, which is fifty feet by ten, was completed by George Robertson of this city, to whom the contract for the work was given by the commission. It will shortly be shipped to the Panama-Pacific Exposition.

The map is in the natural colors of the canal scene, aiming to give the impression one would get if it from an aero plane. Locomotives, range lights, breakwater, even the Cunarder slide in the Culebra cut, are faithfully shown. Many larger landmarks in the lower harbor are also represented.

The only other feature on the model is the suspension bridge which will protect the canal, the disposition of these being, of course, a secret.

TAXPAYERS ASK TO MEET.  
The West Oakland Taxpayers' and Business Men's Association will hold their regular meeting tonight at 8 o'clock in the Prescott School Hall. Everett will deliver his lecture on "Modern Finance."WILSON CONFERS  
WITH COMMISSIONAlaskan Coal Field Problems  
Considered at Meeting  
With Engineers.

By Associated Press.

WASHINGTON, Jan. 11.—Plans were advanced today to nationalize the Alaska coal fields, and railroad to the Alaska coal fields were up for consideration at a conference today at the White House between President Wilson and the Alaska engineering commission, the members of which have been investigating the merits of various proposed routes for the railroad. The commission virtually has finished its preliminary report on the subject.

The proposed railroad was authorized by act of Congress last year. The law provided for the construction at an expenditure of not more than \$35,000,000 of not more than 1000 miles of railroad to connect Alaska's coal fields with the coast, the route to be selected by the President, to whom were also left many other important details. He is to decide whether railroad lines already constructed in the territory shall be purchased as part of the government system, or not.

President Wilson declined to answer questions which must be decided before the actual work of construction is begun.

J. Pierpont Morgan has proposed to sell or lease the Copper River &amp; Northwestern Railroad, a line 198 miles long, connecting Cordova with Kinnicott, for use as a part of the new railroad.

The proposed railroad was authorized by act of Congress last year. The law provided for the construction at an expenditure of not more than \$35,000,000 of not more than 1000 miles of railroad to connect Alaska's coal fields with the coast, the route to be selected by the President, to whom were also left many other important details. The proposed railroad was authorized by act of Congress last year. The law provided for the construction at an expenditure of not more than \$35,000,000 of not more than 1000 miles of railroad to connect Alaska's coal fields with the coast, the route to be selected by the President, to whom were also left many other important details. He is to decide whether railroad lines already constructed in the territory shall be purchased as part of the government system, or not.

President Wilson declined to answer questions which must be decided before the actual work of construction is begun.

and RESIDENTS in  
UNIVERSITY TOWN

SOCIAL and PERSONAL  
HAPPENINGS of DAY  
in the ISLAND CITY

## SENIORS START GAY WHIRL OF COLLEGE ACTIVITIES

Upper Class is Largest in the  
History of the Uni-  
versity.

BERKELEY, Jan. 11.—The re-opening  
of the university brought a busy  
season of four months directly up to the  
senior class of that institution. The  
class to be graduated in May will be the  
largest the university has ever graduated.  
Meetings of the club are to be held in  
the near future to choose the play to be  
given during this term.

Among the new members are Miss Dorothy Wormser, E. C. Garcia, Harvey Roney, L. N. Hamilton and M. E. Hall. All have been prominent in literary or  
dramatic pursuits on the campus in the  
past few semesters.

Carlton Hause is expected to be chosen  
as the new official coach of the  
club. Under his direction past performances  
of the organization for several  
years have proved highly successful.

The English club is but one of several  
several performances scheduled to be  
given between now and May. Among  
these will be the Panhellenic, the annual  
spring massive of the women students,  
and the senior extravaganza in con-  
clusion week.

The English club is but one of several  
performances scheduled to be  
given between now and May. Among  
these will be the Panhellenic, the annual  
spring massive of the women students,  
and the senior extravaganza in con-  
clusion week.

During the whole of the four months  
preparations will proceed for the activi-  
ties of commencement week. The senior  
ball will take place during this week  
and the annual senior extravaganza will  
be given in the spring. A permanent  
memorial will be dedicated  
this yet to be selected. The first of the  
week will come the pilgrimage during  
which the graduates will bid farewell to  
the campus and the university.

In charge of Senior Hall during this  
semester will be D. Kilduff and E. J.  
Young. The following committees have  
been named to have in charge the several  
affairs.

Senior assemblies committee—L. S. Gilmore, chairman; J. O. Hoskins, floor  
manager; Margaret Stone, Mabel Bontz,  
Mildred Clemens, Helen Havens, Mildred  
Hillier, Hazel Fluer, Margaret Weston,  
Ruby Johnson, Margaret Gouraud, R. E. Mills, T. G.  
Knop, R. J. Lyman, R. E. Mills, T. G.  
Chamberlain, P. C. Newell, A. M. King,  
P. F. Terry, J. L. Lillenthal.

Extravaganza committee—N. James  
chairs; with Mildred Culgan, Clara Mortenson, Dorothy Hel-  
ber, Margarette Cron, Jewell Parrish,  
Colis Mitchell, S. C. Howard, E. S.  
Faust, H. L. Dunn, R. P. Minor, D. O.  
P. F. Peabody, E. S. Johnson, P. F. Cad-  
man, C. K. Knight, J. L. McMinn, T. E.  
Hale.

Permanent memorial committee—Catherine de Motte, chairman; Mildred  
Lantz, Ruth Johnson, Hazel King,  
and Colman Ruth, Bryan, Louise Alcott,  
P. F. Peabody, E. S. Johnson, P. F. Cad-  
man, C. K. Knight, J. L. McMinn, T. E.  
Hale.

POSTAL EMPLOYEES AND  
AUXILIARY INSTALL

BERKELEY, Jan. 11.—Joint instal-  
lation exercises were held Saturday night  
by the men's and women's associations of  
the local postoffice employees. Mrs. H. L.  
Nash of the state organizations, installed  
the women's officers, who were the 10th  
to join.

President, Mrs. R. G. Green; vice-president,  
Mrs. J. C. Hickok; secretary, Mrs.  
H. H. Hoyt; treasurer, Mrs. Dennis Miller;  
and Mrs. C. L. Morton.

The men's officers were these: Presi-  
dent, John H. Zelt; vice-president, H. H.  
Wilson; secretary, J. R. Allen; treasurer,  
A. M. C. Johnson; J. C. Hickok.

Mrs. H. H. Wilson and R. T. Welch  
retiring first officers of each organization  
were presented with tokens of esteem.  
Music was an orchestra composed of  
postoffice employees directed by J. C.  
Case.

AUTOISTS ARE FINED  
FOR BREAKING ORDINANCE

ALAMEDA, Jan. 11.—Frank Cogier of  
2420 Linden street, Oakland, came into  
Alameda with his automobile and en-  
route the tail light of his machine  
bounced out. The bounce cost him  
\$2.50. When he appeared before Police  
Judge L. R. Weinhman this morning  
retiring first officers of each organization  
were presented with tokens of esteem.  
Music was an orchestra composed of  
postoffice employees directed by J. C.  
Case.

WIDOW OF DOCTOR DIES

BERKELEY, Jan. 11.—General ser-  
vices are to be conducted tomorrow for  
Mrs. Elizabeth J. Hesser, whose death  
occurred in this city at the age of 57.  
Mrs. Hesser was the widow of the late  
Dr. George T. Hesser, a physician, and  
died a short time ago.

Services at the late home at 205 Park-  
er Street will be followed by interment  
at Sacramento. Mrs. Hesser is survived  
by four children, George R. Schorlet B.,  
Elizabeth and Janice E. Hesser.

BURGLAR LIKES DAINTIES.

ALAMEDA, Jan. 11.—A burglar with  
a liking for pastries, as well as for  
jewelry, is the resident of the  
Ficker of 1429 Marin Avenue, Saturday  
night. After taking a number of articles  
of value he visited the kitchen and  
feasted upon the pie and cake he found  
there.

Fiery Blood  
Disorders Checked

The Sources of Disease are  
Cleaned and Blood  
Purified

These who have used S. S. S. marvel  
at the way it checks blood diseases. See  
a man today with his skin all broken out;  
see him again in a week or two after using  
S. S. S. and he is a wonder to behold, all  
cleared up, skin healthy, eyes bright, a big  
smile replaces the droop. What is S. S. S.  
that can accomplish such wonderful re-  
sults? First of all it is a natural medi-  
cine. Like milk, eggs and other foods that  
can not be imitated. S. S. S. owes it to  
Nature for its power to overcome disease  
just as food prevents emaciation. S. S. S.  
is not a preparation direct from medical  
plants that retains all the virile potency  
of what we need, what we must have in  
the blood to combat those destructive  
tendencies that assail us throughout life.  
If it were not for our natural secretions to  
sustain us, aided by such known helps as  
S. S. S. there would be small chance of  
any of us surviving childhood.

Get a bottle of S. S. S. today from any  
drugist but be careful to avoid the sub-  
stitutes palmed off on the unwary. S. S. S.  
is prepared only by The Swift & Co. of  
33 Swift Bldg., Atlanta, Ga., and for pri-  
vate medical advice write briefly to our  
symptoms to their medical department.  
They will take excellent care of you.

Alameda Pastor Gives First of  
Series of Sermons to  
Young People.

ALAMEDA, Jan. 11.—Rev. Frank K.  
of the First Methodist Episcopal  
church last night gave the first of a  
series of sermons to young people, his  
subject being "Young Men Starting Out,  
or a Playing Partnership." The scrip-  
ture text was "The Strong Therefore,  
and Show Thyself a Man."

"Partnership with the holy ambition  
to be a true man," said Dr. Baker, "will  
pay to the end of time. Self-belt makes  
the man which the Almighty  
is everywhere impressed upon creation.  
Some prefer to trace their origin to  
a meeker or baboon, I prefer to be  
told that God made man in His own image  
and that it is man's chiefest concern  
to preserve that image in all its  
beauty and strength. Man is more than  
animal and is not going with the animal  
path to his end but under God is being  
led to his end."

"Not to make shipwreck of his life one  
must plan it and choose his course and  
follow his chart to safety. Otherwise  
his life craft will be driven hither and  
thither by the waves of life, sometimes  
misleading buoy until his ambitiously  
struggling bark is led into the sea of  
dangerous waves of fraudulent speculation  
and disastrous habits. It is  
next to a trust to move impulse in  
serious matters."

TRUTH IN OLD ADAGE.

"There is much truth in the old adage,  
'Well begun is half done.' Many  
bitterly cry, 'Oh, that might live my  
life over again.' But that is not the  
whole truth. For, if he starts and he  
starts our life starts at a great  
disadvantage. A young man's life will be  
better than the foundation it rests upon.  
Expenses do not do much for a man.  
If a man is born of trouble, as the  
sparks fly upwards, he is also  
born with faculties and powers capable  
of going in the face of most any gale. As  
Longfellow expressed it:

"Know how subtle a thing it is  
To suffer and be strong."

PETER COOPER, who gave that great  
cooper institution for the education of  
poor and needy boys, never had half a  
chance but he had the pleasure of hope  
and the grit to overcome his obstacles.  
William Hunter, the painter, has aptly  
said, "Don't talk of what you want to do,  
do it."

RICHES NOT NECESSARY.

"Nobility of birth and inherited riches  
don't make a man. It is not how long  
one's parents live but how true to some  
man's limited or long life is involved  
in the life of the son. Robert Merrill  
of the California Trona company, which  
litigation over a mortgage held by the  
Standard Oil Company for a loan of \$500  
on October 17, 1910, Attorney R. J.  
Countryman of San Francisco, who  
represented the Standard Oil Company,  
had an interest in the Standard Oil  
Company, has from time to time been  
involved in the controversies that ensued  
in this case.

That the Standard Oil Company has  
an interest in the proceedings, has from  
time to time been intimated as the  
result of the controversies that ensued in  
this case and of those of this and other counties in  
California.

## Stroud Pianola \$575

Convenient Terms If Desired

The STROUD PIANOLA contains the wonderful METROSTYLE, the device for controlling tempo and imparting the correct interpretation. The device consists of a red line marked on the roll and a movable pointer on the instrument. The marking was made by a master musician as the composition should be played. Simply follow the red line with the Metrostyle pointer, and, measure by measure, the selection is played with the correct tempo and the proper interpretation.

The STROUD PIANOLA has other superior devices—the THEMODIST, which automatically brings out the melody or theme clear above the accompanying harmonies—Also the GRADUATED ACCOMPANIMENT, the AUTOMATIC SUSTAINING PEDAL, and a score of other exclusive patents and improvements.

The STROUD PIANOLA possesses an exceptionally full and melodious tone, a quick and correct action; the case of mahogany or oak is the latest design.

Notwithstanding the small down payment and the small installment payments, if you already have a piano, we will accept the same in part payment, allowing liberally for it.

## When you feel a Cold coming on think of Laxative Bromo Quinine Cures a Cold in One Day

It acts as a tonic-laxative and removes the cause of all colds and also "relieves the feverish conditions and headache which are usually associated with colds."

Colds cause Headache, Neuralgia and Grip—

An efficient remedy for Coughs and Colds. Relieves the Cough and also the feverish conditions and Headache, which are usually associated with colds. The second or third dose will relieve the Cough and Headache and will move the bowels well within 8 or 10 hours when the cold will be relieved. In treating colds it is very important that the bowels should move well every day. This preparation moves the bowels gently without griping, and arouses the liver and all the secretions to action. Directions—Adults—Take two tablets at the usual dose and should be taken immediately after each meal. Children going to bed at night, take one tablet every 2 or 3 hours until relieved. For persons who are not old enough to swallow pills, the tablet can be broken or cut in half and given in proportion to age. To be swallowed not chewed. For headache, take 2 tablets every 2 or 3 hours until relieved.

(Patent of label or back of Laxative Bromo Quinine box)

—but remember there is Only One  
"Bromo Quinine"

ESTABLISH IDENTITY OF  
DRUG-CRAZED VICTIM

SAN FRANCISCO, Jan. 11.—The identity of the well dressed youth who spoke incisively of a plot to abduct a young woman named Helen when he was taken to the city prison last night, was revealed today. During the long dark hours in the jail his mind cleared and he gave the name of Arthur Hamlin and said he was a Jackie of the United States cruiser Denver. He knew nothing of any kidnapping plot and when asked about Helen declared that he had a sweetheart by that name. Hamlin was found lying on the sidewalk at Sansome and Washington streets, late last night by Patrolman James Coleman. He had apparently been drugged. It was at first supposed that he was intoxicated but this was dispelled when he was examined and it was found that he had not taken any liquor. Today it was said that he was robbed of \$35 by three men whose descriptions he furnished to the detective department.

**CHINESE SLAYER ARRESTED.**  
By Associated Press

SEATTLE, Wash., Jan. 11.—John George Long, who killed Eng Hoy How in a Chinese laundry at Bremerton last night, was caught early today in my room at the home of Lieutenant George A. Alexander at the Puget Sound Navy Yard, where the Chinese was employed as cook. The Chinese admitted killing Eng Hoy How, but said he acted in self defense, alleging that the dead man was a long gun-man, who threatened to kill him. Friends of Eng Hoy How denied this, saying the killing was the result of a private quarrel over an Indian woman. Eng Hoy How was a servant at the Chief Petty Officers' Club at the navy yard.

## Noted Oaklander Is Dead To Pay Final Tribute

CAPTAIN THOMAS DERMOT.

Friends of a quarter century will gather tomorrow to pay their final tribute to the memory of Captain Thomas Dermot, Oakland pioneer, and father-in-law of Sir Johnston Forbes-Robertson, noted actor, who, following a brief illness due to a sudden stroke, passed away yesterday at his Oakland home, 2529 Ninth avenue. Captain Dermot was the father of Maxine Elliott, noted actress, and Gertrude Elliott, who recently became the bride of the noted English actor, who opened an engagement in Oakland tonight.

Captain Dermot was one of the best known of Oakland's pioneers. He was born in Ireland seventy-eight years ago, but at a very early age came to America and settled in Maine, where later he took up the calling of the sea and became a master-mariner. He transferred his home to Oakland in 1889. He transferred from the sea a few years later. He was twice married. His first wife was Miss Adelie Hall, also of the State of Maine, by whom he had five children. Of these three are still living: Miss Maxine Elliott, the celebrated actress, at present operating her own ambulance at the front in Belgium. Gertrude Elliott, the wife of the eminent English actor-manager, Sir Johnston Forbes-Robertson, and Samuel Dermot of San Francisco.

His first wife having died, Captain Dermot married again a year after his second wife, this second wife being the daughter of his former teacher, Professor Paine, principal of the Thornton Academy, Maine. She survives him.

The funeral service will be held at the family residence tomorrow, at 2 o'clock p. m. Rev. Orville Coates officiating. The interment will be at Rockland, Maine.

## VARIOUS BURGLARIES REPORTED TO POLICE

A burglar ransacked the home of C. L. Braendner, 491 Cheney street, while members of the family were at church last night and stole three diamond rings valued at \$25.

Jewelry valued at \$120 was taken by burglars from the home of Clarence E. Jennings, 4315 Piedmont avenue, according to a report made to the police.

A burglar forced an entrance last night to the home of J. Maney, 744 Grand avenue, and searched the place for money. He obtained \$15.

An automobile belonging to G. F. Burg, 1011 Shattuck avenue, Berkeley, was stolen in Oakland last night, and later found wrecked against a tree at the curb at Magnolia between Fifth and Seventh streets. The auto was found by Patrolman Tillotson and Chidlers.

Chubb and Beckwith, 1027 Broadway, reported to the police that their place of business had been entered and \$16.10 stolen.

Mac Arrowson, 1505 Adeline street, reported that his home was entered during the night, but that the thief was frightened away and obtained little or nothing.

Leon Martin, Arcanont Saloon, 473 Seventh street, reported that the place was entered during the night and \$6 stolen.

MAY TRACE BURGLAR BY  
SEASON TICKET TO FAIR

SAN FRANCISCO, Jan. 11.—A season ticket to the fair may prove a clue to the identity of a burglar who ransacked the home of Mrs. Sam Knowles, 823 Hyde street, this morning. The intruder was very careful in selecting the articles he desired to steal. Sorting through papers he found the exposition ticket, besides taking Mrs. Knowles' \$155 watch and \$25 in cash.

Pincus Offenbach, of 1298 California street, reported the burglar of his room by a man who scaled a fire escape and carried off \$70 in valuables.

OLD HOME OF WILSON BURNS.—PEACOCK INN, Princeton, N. J., Jan. 11.—Peacock Inn, one of Princeton's quaintest and most fashionable hosteries, was ruined by fire yesterday. The loss is estimated at \$10,000. Several invalid guests were brought down by ladders from the upper floors. The inn was at one time the residence of President Wilson.

REDDING, Jan. 11.—Armory Hall, Redding's theater for the last 25 years, was destroyed by fire of unknown origin at 2 o'clock yesterday morning, causing a loss of \$500, with \$3000 insurance. Company D Second Infantry, N. G. C. lost its entire equipment valued at \$12,000, all the property of the United States government. The company will be mustered out. Twenty thousand rounds of ammunition were lost. The discharge of the cartridges kept up a continuous fire during the fire.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and dizziness of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid soap at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.

HOLDUPS ESCAPE AND  
VICTIMS ARE ARRESTED

SAN FRANCISCO, Jan. 11.—Three victims of holdups who were beaten and robbed Saturday night and early Sunday morning were arrested by the police when they reported the robbery. They spent the night in the city prison, was held up by two men in Fifth street, near Howard, at 10 o'clock Saturday night. One of the footpads held Worthy and arms while the others searched him, taking a watch and \$1.65. It was not until yesterday that the victim found a policeman and reported his loss. Then he was arrested by Police Corporal D. J. Collins and booked on a charge of being drunk.

An hour after the holdup of Worthy, Daniel Kelly, a recent arrival from Sydney, Australia, was knocked down by footpads at Third and Howard streets and robbed of \$25. He reported the robbery to Policeman Harry Segune yesterday and was arrested on a charge of drunkenness.

**PRISONER COOLLY ESCAPES.**  
By Associated Press

WALLA WALLA, Wash., Jan. 11.—Wally Rebeno, recently arrested at Pendleton, Ore., and sought here pending investigation by Federal officers, escaped from the county jail here last night. He had been left unguarded a few minutes and coolly walked down stairs into the street. Rebeno was undergoing a treatment for the incarceration of his arms caused by handcuffs becoming partly encrusted in the muscles of his forearms. According to the prison physician, Rebeno must have worn the handcuffs two months prior to his arrest.

There is one sure way that never fails to remove dandruff completely and that is to dissolve it. This destroys it entirely. To do this just get about four ounces of soap, ordinary liquid soap; apply it at night when retiring; use enough to moisten the scalp and rub it in gently with the finger-tips.

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.

You will find, too, that all itching and dizziness of the scalp will stop instantly and your hair will be fluffy, lustrous, glossy, silky and soft, and look and feel a hundred times better.

You can get liquid soap at any drug store. It is inexpensive, and four ounces is all you will need. This simple remedy has never been known to fail.—Adv.
